About the book:

At the heart of Little Bit of Faith is Dr. Selwood, a dedicated neuropsychologist, and her patient, Dr. Arthur McAiden, who suffers cognitive challenges after a life-changing accident. Initially unable to form clear sentences, Arthur is encouraged to write his thoughts down. Arthur does and soon he fills pages with memories, reflections, and tales that seem too off center to be real. His writing reveals a strange and fascinating view of faith yet Dr. Selwood files all of his efforts in the circular filing cabinet of fiction.
