

SB Coming Soon App Introduces “Back In Stock” Alerts to Help Shopify Merchants Recover Sales

Ahmedabad, Gujarat Oct 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - SetuBridge, a developer of practical Shopify tools, has added a new feature to its popular app, “SB Coming Soon - Back In Stock.” The update introduces automatic “Back In Stock” alerts, allowing store owners to notify shoppers when out-of-stock items are available again. This helps businesses recover missed sales and stay connected with their customers.

The app already helps merchants highlight upcoming products using “Coming Soon” badges and countdown timers. With this update, sellers can now add a simple “Notify Me” button on product pages. Shoppers who click it can sign up for alerts through email or message when the item is restocked.

To make communication easier, the app works smoothly with popular marketing tools like Mailchimp, Klaviyo, and WhatsApp. Merchants on the premium plan can send unlimited email alerts, and everything can be managed directly from the Shopify admin panel.

Since its launch in 2020, SetuBridge has focused on building easy-to-use, dependable apps for Shopify stores. The SB Coming Soon - Back In Stock app is compatible with most Shopify themes, offers a 7-day free trial on paid plans, and currently holds a 4.8-star rating from over 150 user reviews.

For more information, visit the app page on Shopify: <https://apps.shopify.com/coming-soon-products-2>
