

Smith Cotton Co. Launches Digital Fashion Magazine on October 18

A New Chapter in Sustainable Luxury Fashion by Founder Kendrick Smith

Charlotte, North Carolina Oct 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - Smith Cotton Co., a new name in timeless women's luxury fashion, proudly announces the launch of its digital fashion magazine on October 18, 2025. The magazine, an extension of the brand's modern yet heritage-inspired vision, invites readers into a world where high fashion meets enduring sustainability.

Founded in April 2025 by Kendrick Smith, Smith Cotton Co. was born from a simple but powerful realization: a new year, new life experiences, and new perspectives call for change. Tired of the fast fashion cycle and environmental toll of modern consumption, Smith envisioned something better.

"What if clothing could last for generations?" That question sparked the creation of Smith Cotton Co.—a brand built on the belief that luxury should not only be beautiful, but also lasting, sustainable, and deeply personal.

With a commitment to high-quality cotton, timeless design, and ethical production, Smith Cotton Co. aims to offer modern essentials that never go out of style. The brand's ethos: Luxury that becomes your legacy.

The launch of the Smith Cotton Co. Magazine marks the next step in bringing that vision to life. With stunning editorial features, designer spotlights, behind-the-scenes looks at the brand, and stories on sustainable living, the magazine will serve as both an inspiration and a resource for women who value substance as much as style.

In celebration of its launch, the magazine is currently accepting select advertisers aligned with its values of quality, sustainability, and innovation.

About Smith Cotton Co.

Smith Cotton Co. is a women's luxury fashion house dedicated to crafting high-quality, sustainable garments designed to stand the test of time. Inspired by enduring style and the beauty of change, the brand celebrates craftsmanship, modern femininity, and the power of legacy.
