

SNAP.esg Launches \$49 Automated ESG Snapshot Reports for Small and Medium Enterprises

Affordable, consultant-level sustainability reporting in minutes – designed for SMEs facing rising ESG disclosure expectations

Melbourne, Australia Oct 28, 2025 ([IssueWire.com](https://www.issuewire.com)) - **SNAP.esg**, a new micro-SaaS platform, has launched an automated ESG reporting service to help small and medium-sized enterprises (SMEs) meet growing environmental, social, and governance (ESG) disclosure demands without the cost of consultants.

For a flat fee of **AUD \$49 per report**, SNAP.esg delivers a polished ESG “snapshot” PDF, benchmarked against international standards, within minutes of form submission. The service is built for SMEs who need quick, affordable, and credible ESG data to share with customers, investors, and regulators.

“Traditional ESG consulting is out of reach for most SMEs,” said **Joel**, founder of SNAP.esg. “We designed SNAP.esg to give smaller businesses instant, affordable access to professional ESG reports, helping them build trust and stay competitive.”

Key features:

- Flat \$49 per report – no subscriptions, no hidden costs
- Automated PDF reports branded and benchmarked against SME-relevant ESG standards
- Simple online form integrated with Shopify checkout for seamless access
- Designed for SMEs in all industries seeking quick credibility with stakeholders

The launch comes as global reporting frameworks such as the International Sustainability Standards Board (ISSB) and GRI continue to set disclosure expectations that increasingly filter down to SMEs in supply chains.

SNAP.esg positions itself as the **fast, affordable alternative to consultants**, giving SMEs the ability to demonstrate ESG action without complexity.

About SNAP.esg:

SNAP.esg is an Australian-based micro-SaaS venture that automates ESG snapshot reporting for small and medium enterprises. By combining structured forms, benchmark data, and automated PDF generation, SNAP.esg makes sustainability reporting fast, credible, and affordable.
