Noida, Uttar Pradesh Oct 8, 2025 ([Issuewire.com](https://www.issuewire.com)) - SPXCommerce, a composable and cloud-native commerce platform, launched its groundbreaking suite of Smart AI Automations for the eCommerce owner. This new product moves beyond basic AI recommendations to introduce an autonomous system that manages critical business operations for maximum profitability.

The launch addresses a key pain point: the immense manual effort required to manage pricing, inventory, and personalization. SPXCommerce's Smart AI Automations are designed to act as an in-house team of data scientists and operations managers, working autonomously around the clock.

Core AI Automation Capabilities of SPXCommerce

2-Minute Vendor Onboarding: The platform's AI completely automates vendor onboarding, slashing a traditionally week-long process to just two minutes for rapid marketplace scaling.

Agentic AI for Personalization: SPXCommerce's platform features autonomous AI agents that craft unique, real-time shopping journeys for every customer, boosting engagement and sales conversions.

AI-Powered Chatbots: Integrated intelligent chatbots on the platform provide instant, 24/7 customer support, effectively reducing support tickets and preventing cart abandonment.

Global-Ready from Day One: Enterprises can launch worldwide instantly, as the platform comes pre-equipped with multi-lingual, multi-currency, and region-specific compliance features.

Seamless Ecosystem Integration: The platform is engineered for effortless connectivity, offering smooth and robust integrations with all major ERP, POS, and CRM systems.

Uncompromising Security: SPXCommerce guarantees enterprise-grade reliability with sub-2-second load times powered by AWS and robust security protocols that safeguard all operations.

BI Reporting and Analytics Dashboard: The platform offers a centralized command center with real-time, predictive analytics and actionable insights to inform strategic decision-making.

Speaking about AI innovation, Vikash Sharma, CEO at SPXCommerce, explained, "Our USP is delivering a self-managing profit center. We are automating the intellect of commerce and solving complex decisions on pricing, inventory, and personalization that directly impact the bottom line. This allows business leaders to focus on vision and growth."

About SPXCommerce

[SPXCommerce](#) is a composable, cloud-native commerce platform built on microservices and AWS scalability. ISO 9001 & 27001 certified and a NASSCOM-D&B member, the platform delivers secure, scalable solutions featuring AI-driven personalization, React storefronts, mobile apps, PIM, OMS, and BI dashboards.
