SVCV Global Announces Multi-Tranche Capital Formation Strategy

SVCV Global has finalized a comprehensive, multi-phase capital formation strategy to facilitate its long-term growth and public listing objectives. The structured roadmap outlines a clear transition from private capital to public market liquidity across a multi-entity architecture.

The capital formation sequence is designed to fund strategic acquisitions and operational scaling, culminating in a series of public listings for its portfolio entities.

The strategy is projected to raise approximately \$2.28 billion through a combination of private capital, public equity, and public debt. This capital will support the Group's expansion and the planned public listings of its core entities, including SVCV Global (LSE, Tokyo), COCO Global (ASX, Hong Kong), and others across key international exchanges.

The corporate structure is organized under SVCV Partners (Guernsey) as the licensed fund manager, with operational entities domiciled in strategic jurisdictions.
