

The International MLS [IMLS]® Announces Chestertons Global Joins The IMLS

Delray Beach, Florida Oct 23, 2025 ([IssueWire.com](https://www.issuewire.com)) - The International MLS [IMLS]® announced today that Chestertons Global has joined The IMLS as a Listing Broker member.

Established in 1805, Chestertons is one of the world's longest-standing real estate firms, having successfully navigated centuries of market evolution to remain a trusted name in property for over 200 years.

Today, Chestertons Global represents a network spanning more than 20 countries, offering a comprehensive range of real estate services that extend far beyond sales and leasing.

"We welcome Chestertons Global to The IMLS network," said Dr. Daniel Nussbaum, CEO/Founder of The IMLS. "With their listings now featured on www.TheIMLS.com, across all international search pages worldwide, and on realtor.com international, Chestertons Global gains unparalleled global reach. This partnership offers them a significant competitive advantage, enabling access to more buyers and greater listing opportunities, reinforcing their position as a leader in the international property market."

The IMLS global platform is the culmination of years of development by The International MLS [IMLS]®. Beyond listing their properties on The IMLS, Chestertons Global has enhanced their presence by including their own branding, up to 20 high-quality images, and a tailored company description for each listing. They have also selected to get an IMLS International Search page with all IMLS listings for their own websites. This enables Chestertons Global to capture leads from buyers looking to buy anywhere, and where they can provide the buyer with one of their own agents or refer them to any real estate agent in the world.

This search page has all of the IMLS's residential and commercial listings in 100+ countries and in 100+ languages to have on their own sites to capture client leads that they can refer to other agents outside their own local markets. In addition, they will be able to get a Broker Directory Listing for every city they service, along with The IMLS New Home Development search that has 250 New Home Developments in 25 countries.

As a company located outside the USA, the membership package includes syndication to realtor.com along with the many options that the IMLS offers in addition to the IMLS basic memberships which provide all members with Agent Directory listings in every city they service, the international new homes developments search in an unbranded solution, as well as other products and opportunities that they can access in their individual members area. Additionally, they can choose to syndicate their listings to 60+ global real estate portals in 40+ countries that attract an estimated 100,000,000 viewers a month.

The IMLS global technology platforms address the growing concerns about the direction of the real estate industry by making certain core ethical promises. The IMLS never advertises other agents on a personal member's listing page, and if a consumer is interested in a property, only that listing agent will receive the lead.

"After having tied together our residential, syndication, developers, and commercial platforms all together as originally envisioned for the industry, we are excited to have Chestertons Global decide to come in and join The IMLS. Our goal has always been to bring the real estate world closer together by

serving the best interests of all concerned. We believe that great companies and agent teams will see all the strategic advantages of joining The International MLS [IMLS]®,” said Dr. Nussbaum.

“Joining The International MLS [IMLS]® is a natural step in Chestertons Global’s growth journey. This partnership delivers continued value to our network and opening new opportunities for collaboration. It reinforces our commitment to delivering exceptional service and growth for our partners and clients worldwide”, Parikshat Chawla, Director and Head of Global Operations, Chestertons Global.

About The International MLS [IMLS]®
