

UbiTimer Launches Free PowerPoint Timer Add-in for Teachers and Presenters Worldwide

UbiTimer introduces a simple PowerPoint timer add-in that helps educators, trainers, and presenters manage time seamlessly with countdown, count-up, and radial display modes — now free for teachers.

Bracknell, Berkshire Oct 13, 2025 ([IssueWire.com](https://www.issuewire.com)) - UbiTimer, a new Microsoft PowerPoint add-in, is transforming how teachers and professionals manage presentation time. Designed for clarity and control, it allows users to **add countdown, count-up, or radial timers directly onto slides**, helping to keep lessons, meetings, and speeches perfectly on track.

Unlike ordinary timers, **UbiTimer integrates natively within PowerPoint**, supporting both Edit and Slide Show modes on **Windows and Mac**. Users can customize timer colors, fonts, and duration per slide, or sync a global timer across all slides for consistent pacing.

For educators, UbiTimer offers a **free EDU version**, helping classrooms run smoother and keeping lessons on time — an especially valuable tool for timed activities and assessments.

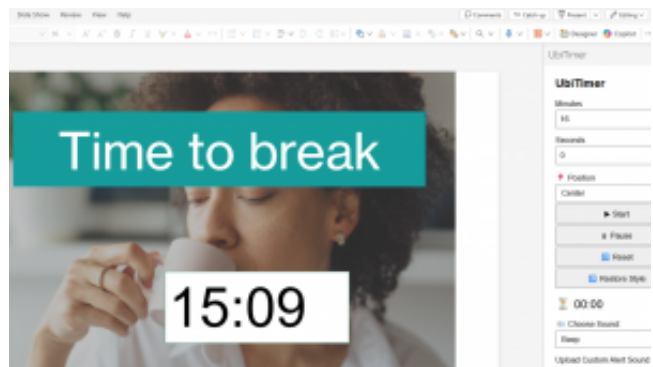

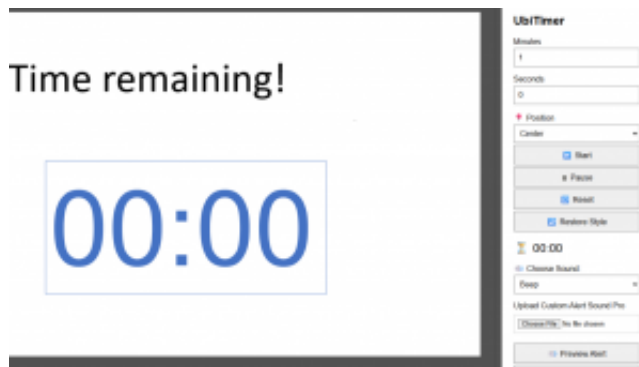

“We built UbiTimer to make presentations smoother and less stressful,” said a spokesperson for the UbiTimer team. “Teachers and presenters deserve a simple, reliable way to manage their time right inside PowerPoint — no external apps or web tools required.”

Key Features:

- Countdown, count-up, and radial display modes
- Per-slide or global timer synchronization
- Works in PowerPoint Edit and Slideshow modes
- Fully compatible with Windows and Mac
- Free EDU licenses for verified teachers

UbiTimer is available now at <https://ubitimer.com>.

Teachers can apply for a free license through the EDU program at <https://ubitimer.com/edu>
