

V AQUA WATER TREATMENT COMPANY: Redefining Water Purity with 20+ Years of Innovation and Excellence

Leading India's Water & Wastewater Revolution with Advanced RO Plants, Water Softeners, ETP, STP and Sustainable Treatment Solutions

The image features the V AQUA logo, which consists of a blue water drop icon containing a white checkmark, followed by the text 'V AQUA' in a bold, blue, sans-serif font. Below this, the words 'WATER TREATMENT COMPANY' are written in a smaller, blue, sans-serif font. Underneath the company name is the tagline 'Redefining Water Purity with 20+ Years of Innovation and Excellence' in a blue, sans-serif font. The background of the entire section is a light blue gradient with a wavy water texture at the top. Below the text, there are four images of water treatment equipment: a large industrial RO plant with multiple blue and silver components, two vertical blue water softener tanks, a smaller white cylindrical tank, and a large horizontal stainless steel tank with blue piping.

WATER & WASTEWATER SOLUTIONS

New Delhi, Delhi Oct 31, 2025 ([IssueWire.com](https://www.issuewire.com)) - In an era where clean and safe water is essential for healthy living, **V AQUA WATER TREATMENT COMPANY**, a manufacturing brand under **RO Service Point (ROSP)**, stands as a pioneer in providing cutting-edge water purification and wastewater management solutions across India. With more than **two decades of expertise** and a remarkable **100% customer satisfaction rate**, V AQUA has become a trusted name among homeowners, businesses, and industries seeking reliable, efficient, and eco-friendly water treatment systems.

A Legacy of Innovation and Trust

Since its inception, V AQUA has been committed to solving India's toughest water challenges. From hard water problems in households to large-scale industrial wastewater treatment, the company's vision has always been clear — to deliver **pure water for every purpose**.

Over the years, V AQUA has evolved into a full-fledged manufacturer and service provider offering end-to-end water treatment solutions, including **design, engineering, installation, maintenance, and**

after-sales support. Its integration of advanced technologies ensures that every drop of water meets international purity standards.

Comprehensive Product Range for Every Sector

V AQUA WATER TREATMENT COMPANY offers a wide array of products designed to meet the diverse water treatment needs of **residential, commercial, and industrial clients**. Each product is engineered for durability, efficiency, and long-term performance.

1. RO Plants (Reverse Osmosis Systems)

V AQUA's **RO Plants** are among the most advanced in India, designed to remove dissolved salts, chemicals, and impurities from water. Available in multiple capacities — including **1000 LPH, 2000 LPH, 3000 LPH, 4000 LPH, 5000 LPH, 6000 LPH, 12000 LPH, and 14000 LPH** — these plants cater to industries such as pharmaceuticals, food and beverage, hospitals, and educational institutions.

Each plant is equipped with **energy-efficient membranes, automated controls, and smart monitoring systems** to ensure high recovery rates and minimal maintenance.

2. Water Softeners for Homes and Apartments

Hard water is one of the most common household problems in India, leading to scale buildup, dull hair, and damaged appliances. V AQUA's **Water Softeners** are the perfect solution. Designed with **ion exchange technology**, these systems effectively reduce hardness, extend the life of plumbing and appliances, and improve the quality of water for bathing and cleaning.

V AQUA also provides **salt tablets** and **resin replacement services** to keep softeners functioning at peak efficiency.

3. Industrial Water Softeners and Filtration Systems

For industries that rely heavily on water — such as manufacturing, textiles, and food processing — maintaining consistent water quality is critical. V AQUA's **industrial softeners and filtration units** are built to handle large volumes and deliver consistent results. These systems help companies **reduce scaling, energy consumption, and maintenance costs**, while improving process efficiency.

4. DM (De-Mineralization) Plants

V AQUA manufactures high-performance **DM Plants** for industries requiring ultra-pure water. Utilizing cation and anion exchange resins, these systems effectively remove minerals and ions, producing water suitable for **boilers, pharmaceuticals, and laboratories**.

5. Effluent Treatment Plants (ETP)

As environmental sustainability becomes a global priority, V AQUA leads the way with **Effluent Treatment Plants** designed to treat industrial wastewater and make it safe for discharge or reuse. Each ETP is custom-designed based on industry type and wastewater characteristics, ensuring compliance with **CPCB and SPCB regulations**.

6. Sewage Treatment Plants (STP)

For residential complexes, hotels, and institutions, V AQUA's **Sewage Treatment Plants** provide reliable and compact wastewater treatment solutions. These systems use **aerobic and anaerobic processes** to remove contaminants, allowing the treated water to be reused for **gardening, flushing, or cooling purposes**.

7. Rainwater Harvesting and Recycling Solutions

To promote sustainable water management, V AQUA also offers **rainwater harvesting systems** that help conserve groundwater and reduce dependency on municipal water. These systems are ideal for housing societies, commercial buildings, and government projects.

8. Spare Parts, Chemicals, and Maintenance Services

V AQUA ensures long-term performance of its systems with genuine spare parts, quality-tested chemicals, and professional AMC (Annual Maintenance Contract) services. The company's nationwide service network guarantees quick response and hassle-free support for all clients.

Engineering Excellence with a Human Touch

At the heart of V AQUA's success lies its people — a team of **qualified engineers, technicians, and water treatment specialists** dedicated to innovation, quality, and customer satisfaction. Every product is tested under rigorous quality standards, ensuring performance and longevity.

The company also invests in **research and development** to incorporate new technologies such as **smart automation, IoT-based monitoring, and energy-saving components** into its systems.

Sustainability and Environmental Commitment

V AQUA WATER TREATMENT COMPANY believes that **pure water means a pure future**. The company's approach to sustainability is reflected in every aspect of its operations — from using **eco-friendly materials** to designing **zero-waste discharge systems**.

Its focus on water reuse and recycling has helped clients **reduce operational costs, minimize environmental impact, and achieve sustainability goals**.

Customer-Centric Philosophy

With a mission to make safe water accessible to all, V AQUA operates on a simple principle — **"Customer First."** The company's 100% satisfaction rate is a testament to its transparency, reliability, and personalized support.

Customers benefit from:

- Free water testing and consultation
- Tailored system design based on water quality reports
- On-site installation and training

- 24x7 service support and AMC options

From individual homeowners to large corporations, V AQUA has built long-lasting relationships through trust and performance.

20+ Years of Experience, One Clear Vision

With more than two decades in the industry, V AQUA WATER TREATMENT COMPANY continues to innovate and expand its reach across India. The company has successfully completed hundreds of installations across **apartments, hotels, hospitals, schools, industries, and government facilities**, earning recognition as a dependable water treatment partner.

Its parent company, **RO Service Point (ROSP)**, provides nationwide sales and service support through a network of trained professionals and authorized dealers.

Experience the V AQUA Advantage

-  **20+ Years of Industry Experience**
-  **100% Customer Satisfaction**
-  **End-to-End Water Treatment Solutions**
-  **Sustainable and Energy-Efficient Systems**
-  **Nationwide Support and AMC Services**
-  **Trusted by Thousands of Homes & Industries**

Whether you're a homeowner looking to improve water quality or an industry aiming for compliance and cost-efficiency, V AQUA delivers customized water solutions that bring **purity, comfort, and peace of mind**.

About V AQUA WATER TREATMENT COMPANY

V AQUA WATER TREATMENT COMPANY, part of **RO Service Point (ROSP)**, is a leading manufacturer and service provider in India's water and wastewater treatment industry. With a mission to deliver cleaner, safer, and more sustainable water, V AQUA designs and manufactures **RO Plants, Water Softeners, DM Plants, ETPs, STPs, and Filtration Systems** for homes, commercial facilities, and industries.
