

WebLedger Announces the Launch of New Integrated Practice Management Software for Indian CAs

Bringing automation, compliance, and collaboration together for Indian Chartered Accountants.

Surat, Gujarat Oct 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - WebLedger, the most popular SaaS-based accounting and office management solution provider in India, now announces the release of its state-of-the-art Integrated **CA Practice Management Software** to serve Chartered Accountants and accounting firms in the entire of India. This new, cloud-based platform takes compliance, client management, document storage, and workflow automation, and brings them together in a single, powerful solution to transform the way CAs practice.

New **Practice Management Software** by WebLedger, focusing specifically on the productivity boost and streamlining of the sophisticated tasks, is able to meet the various industry-specific requirements of CA firms, including a startup or a large company. The software also facilitates

smooth operation of client engagements, automation of tasks and proper and punctual compliance with GST, TDS, Income tax and audit requirements under a single roof.

The most notable features of WebLedger's [CA Practice Management Software](#) include:

- **Encompassed Task Automation and Workflow:** Automates the distribution of tasks as well as tracking their progress and automation of regular tasks to improve the efficiency of the office and decrease the amount of manual work.

- **Easy to comply:** GST filing, TDS management, income tax returns processing and generation of audit reports are automated, meaning that firms are completely compliant to the changing regulations.
- **Secure Cloud Storage:** The unlimited storage of all the financial records, contracts, deeds, and client information, can be available at all times, and any location to facilitate teamwork and data protection.
- **Improved Customer Interaction:** Consolidated client portals that include uploading of documents, secure communications, and tracking of online payments to enhance customer interaction and management of cash flows.
- **High-tech Financial Solutions:** Bank balances, tax computations, CMA information presentation, and audit automation provide insightful financial account and accuracy of the reporting.
- **Scalable and User-Friendly:** A cloud-based solution that can accommodate firms of any size and have multi-branch capabilities, real-time dashboards and can be accessed on multiple devices allowing on-the-go management.

"This newly integrated **practice management software** is designed to give Indian Chartered Accountants the power of one-stop solution to meet their highly demanding compliance and practice management services," a senior spokesperson of WebLedger said. WebLedger promises to enable CAs to concentrate on offering high-quality client advisory services and remain regulatory compliant and operationally excellent by automating repetitive tasks and integrating key financial processes.

WebLedger is designed to accommodate the dynamic nature of the accounting practice and create cooperation, security and efficiency. It is a cloud-first solution meaning that it is not associated with complicated installations and can be accessed easily on desktops, tablets, and smartphones.

It can be accessed at present free for beginners with scalable pricing packages at \$42 per month as well as onboarding, training and support to all subscribing companies. Curious companies may check out a free trial to feel the disruptive effect of integrated **CA practice management software** of WebLedger.

To learn more or to have a demo, go to the official WebLedger site or call their customer service department.
