Tomah, Wisconsin Oct 6, 2025 ([IssueWire.com](https://www.issuewire.com)) - Children with asthma and allergies often feel isolated, different, or left out but a new book by Dr. Susan M. Roberts reminds them they are never alone. Inspiration Behind the Book

As a critical care nurse and epidemiologist, Dr. Susan M. Roberts has spent her career on the front lines of illness and recovery, witnessing both the fragility and resilience of the human spirit. Through these experiences, she discovered that true health extends beyond medical charts; it begins with feeling seen, heard, and valued.

This realization became the foundation for *Whimsy Works™ Skincare Patrol: Asthma and Allergies Rescue*. Dr. Roberts sought to bridge her worlds of medicine and storytelling to teach children resilience, not only in the face of illness, but also in the challenges of identity, belonging, and self-expression.

"My clinical work taught me how quickly silence can cost lives," Dr. Roberts shares. "My storytelling ensures that silence never costs a child their sense of worth. Through *Whimsy Works™*, I want to give

children and their families more than information. I want to give them a voice, a story, and the courage to stand tall, even in the face of struggle”.

Author's Message to Readers

Dr. Susan M. Roberts offers an empowering message to her readers, especially the young leaders holding her book in their hands. She reminds them that every voice, no matter how quiet, has the power to create change: to move hearts, inspire others, and make a difference in the world.

“You don't have to wait until you're grown to lead,” Dr. Roberts shares. “Leadership begins the moment you stand up for yourself, speak up for someone else, or choose to believe that you belong.”

Through the *Whimsky Works™* series, she encourages children to recognize the strength, courage, and wisdom they already carry within. Her hope is that each reader will see themselves not as small, but as extraordinary, and remember that even the faintest whisper can rise into a voice strong enough to move mountains.
