

4th Abu Dhabi Smart City Summit 2025 sets bold urban innovation roadmap with DMT, DoE & ITC leading the charge

Dubai, United Arab Emirates Nov 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - The **4th Abu Dhabi Smart City Summit** successfully concluded after two days of dynamic discussions, technology showcases, and strategic collaborations aimed at shaping the future of intelligent urban infrastructure. Held in Abu Dhabi, the summit brought together government leaders, industry experts, and innovators to explore transformative solutions for smart cities, sustainable mobility, and resilient urban ecosystems.

Visionary keynotes: Senior officials including H.E. Dr. Saif Sultan Al Nasri (Undersecretary - Department of Municipalities & Transport), H.E. Ahmed Al Jneibi (Executive Director - Gov Digital Strategy, Transformation and Governance Sector - Department of Government Enablement), and H.E. Ahmed Al Falasi (Executive Director, Energy Efficiency Sector - Department of Energy) opened the first day of the summit with insights on Abu Dhabi's roadmap for smart urban development.

The second day of the summit was opened by H.E. Sami Alhashmi (Executive Director, Public Transport Sector, Integrated Transport Center), followed by a VIP keynote from H.E. Dr. Mohamed Al Kuwaiti (Head of Cyber Security, UAE Cyber Security).

The summit emphasized **AI-driven urban intelligence, cyber resilience, green mobility, and data-**

driven KPIs for smart city ROI. Collaborative frameworks between public and private sectors were highlighted as critical to accelerating Abu Dhabi's vision for a sustainable, connected future.

The Summit was organized by Advanced Conferences & Meetings (ACM), with the support of key partners including the Department of Municipalities and Transport, Abu Dhabi Civil Defence Authority, Dubai Electronic Security Center, and the Cyber Security Council. Deloitte Middle East served as the Knowledge Partner, alongside other innovative technology and solution providers such as G, Njizat, Prismo, Streamax, Amana, Signify, Al Futtaim Technologies, Asset, Genetec, Alghorab, Arasca, Samcom, Hanwa Vision, and Mobiltech. Executive Partner Consortium Business Services.

The **4th Abu Dhabi Smart City Summit** reaffirmed the emirate's commitment to leveraging technology and innovation for smarter living. Plans for continued engagement and knowledge exchange were announced, ensuring momentum toward Abu Dhabi's Zero-Fatalities Vision and climate-resilient urban growth.
