Beverly Hills, California Nov 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - Tony Robbins and Dean Graziosi Launch Free "AI Advantage Summit" to Equip Entrepreneurs for the AI Revolution

Global life and business strategist **Tony Robbins** and renowned entrepreneur **Dean Graziosi** today announced the launch of the **AI Advantage Summit**, a free, three-day virtual event designed to help

entrepreneurs, professionals, and small business owners harness the practical power of Artificial Intelligence.

The summit, running **November 6–8, 2025**, aims to cut through the industry hype and complexity, offering simple, actionable strategies that attendees can immediately apply to their businesses to dramatically increase productivity, save time, and accelerate growth.

“We’re in a situation that happens once in a generation,” said Tony Robbins. “There are AI tools that can accelerate your success massively, but if you don’t know them, they’ll cost you. The goal of this summit is to simplify the complex and give real-world tactics that translate into a serious competitive edge.”

Key Summit Highlights:

- **Dates & Time:** November 6–8, 2025, 11 a.m. to 2 p.m. EST daily.
- **Format:** Free, 100% online virtual event.
- **Mission:** To provide clarity and confidence for using AI to save at least 15 hours per week and multiply output by 10 to 50 times without hiring new staff.
- **Expert Lineup:** Robbins and Graziosi have distilled hundreds of hours of interviews with top AI minds—including founders, engineers, and Fortune 100 executives—into a single, focused event. Confirmed speakers include **Marc Benioff** (Co-founder, Chairman, and CEO of Salesforce), **Arthur Brooks** (Harvard Professor and Author), and leading AI Strategist **Allie K. Miller**, among others.
- **Focus Areas:** Practical applications of AI in marketing, sales, operations, productivity, and finance.

Dean Graziosi emphasized the event’s pragmatic approach. “Too many smart, driven people are getting left behind because no one is making AI simple, human, and useful for the everyday business owner,” he stated. “This isn’t a tech conference; it’s a confidence summit. We’re showing you what’s working *right now* to drive real results.”

Attendees will learn how to leverage AI to move past guesswork, eliminate inefficiency, and apply timeless business principles to this emerging technology. Robbins and Graziosi, combining 76 years of business leadership experience, promise to bridge the gap between AI theory and real-world profitability.
