

AnandDhara Technologies Reveals Advanced Water Wastewater and HVAC Engineering Solutions

Engineering company strengthens its capabilities in water, wastewater, Clean Room, Ducting work and HVAC solutions with advanced technologies, experienced leadership and a commitment to building sustainable and future ready infrastructure.

AnandDhara
TECHNOLOGIES
Building A Sustainable Future

Ankleshwar, Gujarat Nov 30, 2025 ([IssueWire.com](https://www.issuewire.com)) - info@ananddhara.in AnandDhara Technologies: Delivering India's Most Advanced Water, Wastewater & HVAC Engineering Solutions

AnandDhara Technologies is a multidisciplinary engineering company committed to building a sustainable future through advanced water, wastewater, and HVAC solutions. With over a decade of industry experience, we deliver innovative, reliable, and eco-friendly systems designed to meet the evolving needs of residential, commercial, industrial, and institutional clients across India.

We specialize in complete water and wastewater management, offering end-to-end solutions including STP, ETP, WTP, RO, ZLD, decentralised treatment systems, EPC project execution, BOOT/PPP models, automation, and comprehensive O&M services. Our systems are engineered to be energy-efficient, compact, cost-effective, and capable of handling variable loads with minimal manual intervention.

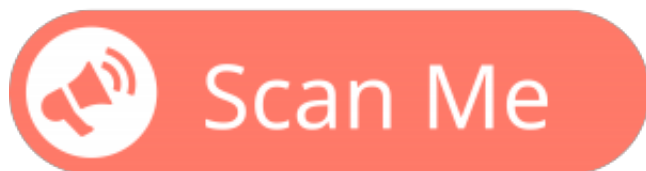

Our HVAC Division provides full-scope expertise in Chiller Plants, Cooling Towers, Clean Room HVAC (Class 100 to 100,000), Ducting & Air Distribution, VRV/VRF systems, Building Automation, and long-term AMC & O&M support. From concept to commissioning, we ensure flawless project execution with safety, quality, and performance at the core.

Sustainability is our operating principle. We proudly support national priorities such as the Swachh Bharat Mission and the 100% Make in India initiative, and we are among the first in the sector to offer fully automated service solutions that reduce environmental impact while maximizing operational efficiency.

We serve key sectors including Pharma & Biotech, Healthcare, Manufacturing, Industrial Facilities, Commercial Complexes, Residential Communities, Hospitality, Education, and Public Infrastructure.

"Our mission is to deliver reliable, efficient, and future-ready engineering solutions that support a cleaner, smarter, and greener tomorrow."
