

Avanza IV Lounge Clinic Launches Advanced Anti-Acne IV Therapy for Clearer, Healthier Skin

Avanza IV Lounge Clinic, a leading provider of IV vitamin and integrative wellness therapies, has announced the introduction of its specialized Anti-Acne IV Therapy, designed to help individuals achieve clearer skin and balanced wellness from within.

vitamins, minerals, and antioxidants through intravenous infusion, aiming to reduce acne breakouts, support skin detoxification, and strengthen the body's natural defence mechanisms.

“Our Anti-Acne IV Therapy is crafted for those seeking holistic solutions to skin concerns,” said a spokesperson for Avanza IV Lounge. “It’s more than a cosmetic fix — it’s a way to restore balance, promote internal health, and enhance skin vitality.”

Key Benefits

Helps reduce acne breakouts and visible skin irritation

Supports natural skin detox and tissue repair

Strengthens skin's defence against oxidative stress

Encourages collagen production for healthier texture and tone

Available via both in-lounge and mobile IV therapy

About the Anti-Acne IV Therapy

The Anti-Acne IV Therapy is part of Avanza's growing portfolio of wellness treatments, which also includes Age Defence, Super Detox, Hydration Boost, and Immune Remedy IV drips. The therapy focuses on internal wellness — supporting the body's natural systems to achieve clearer, more resilient skin from the inside out.

Each session is administered under medical supervision, following international safety standards.

About Avanza IV Lounge

Avanza IV Lounge is an international wellness brand offering premium IV vitamin therapy, wellness shots, and lab draw services across the UK and India.

Founded by experienced medical professionals, Avanza blends modern clinical practice with a holistic approach to wellness — helping clients rejuvenate, recover, and perform at their best.
