

Brucksch and Sons Remodeling Relocates to New Pasadena Office

The company relocates to support growth, improve client access, streamline operations, and strengthen its ties to the Pasadena community.

Pasadena, Maryland Nov 17, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Brucksch and Sons Remodeling** has officially moved into its new office and showroom at **8894 Fort Smallwood Rd, Pasadena, MD 21122**, just a short distance from its previous location. The company began operating from the new space on October 20, 2025.

The relocation marks a meaningful step for the family-owned remodeling contractor, which has been serving Anne Arundel County homeowners since 2011. The move supports the company's continued growth and strengthens its connection to the local community.

"This location was a good fit because it helps us become a visible part of the community," said Bobby Brucksch, owner of Brucksch and Sons Remodeling. *"There's a daycare, karate school, and restaurant in the same complex — all centered around family. Since we've always been a family-first company, it felt like the perfect environment."*

The new office was an empty shell when the team first took it over. Brucksch and his crew completed a full build-out, adding a customer-facing showroom, five dedicated offices, and a comfortable gathering area for employees, subcontractors, and clients.

"We've built this location from scratch to provide a higher level of customer service," Brucksch added. "It gives us the opportunity to bring customers directly into our showroom, provide a more personal experience, and host community events in the months and years to come."

The company continues to focus on delivering high-quality remodeling services with clear communication and dependable workmanship. Brucksch and Sons Remodeling backs its work with a **5-year workmanship warranty** and maintains membership in the **National Association of the Remodeling Industry (NARI)**, reinforcing its commitment to professionalism and industry standards.

The new location now serves as the operational hub for the company's expanding list of home improvement services, which include home remodeling, [kitchen remodeling](#), [bathroom remodeling](#), [basement remodeling](#), [home additions](#), [shower remodeling](#), bathroom conversions, and full design-build renovations.
