

Cambridge Infotech Announces Advanced Career-Ready IT Training Programs for Students and Professionals

A new step towards bridging the skill gap in the IT industry, offering hands-on certification training in AI, Cybersecurity, Full Stack Development, Cloud Computing, Digital Marketing, and more.

CAMBRIDGE
INFOTECH

Bengaluru, Karnataka Nov 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - Cambridge Infotech, a leading IT training and professional development institute based in Bangalore, has officially announced the launch of its advanced career-ready training programs designed for students, working professionals, and job seekers across India. The institute is focused on bridging the growing skill gap in the IT industry by offering hands-on, practical training aligned with real-world industry standards.

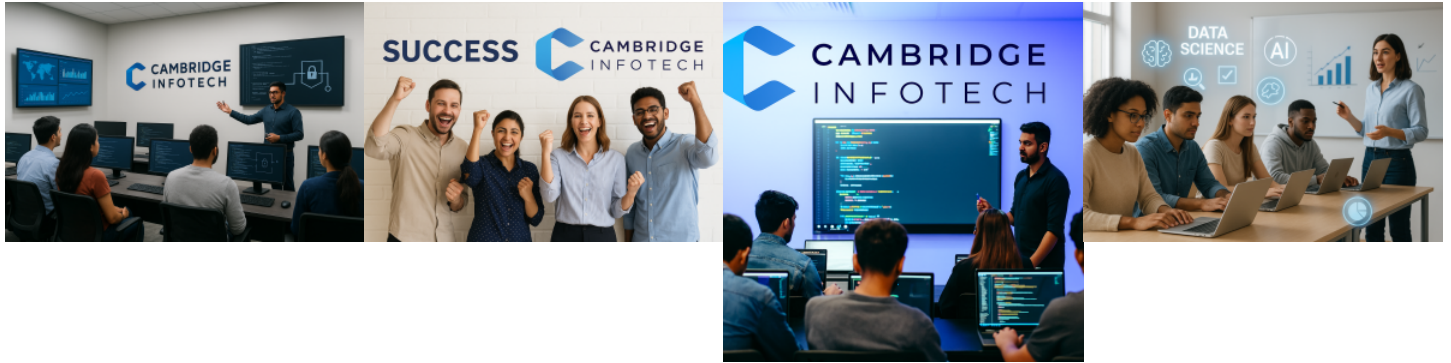

The newly launched programs include Artificial Intelligence, Cybersecurity, Full Stack Development, Cloud Computing, Ethical Hacking, Data Science, Software Testing, UI/UX Design, and Digital Marketing. Each course includes live practical sessions, mentorship from experienced trainers, internship support, and real project-based learning.

“We understand that today’s IT industry demands more than just theoretical knowledge. Our programs are structured to help learners develop real skills that companies are hiring for right now,” said **Mr. Derrick Mathew**, Founder and Director of Cambridge Infotech.

To support career growth, Cambridge Infotech also provides personalized career counseling, resume building, interview training, and placement assistance through its network of hiring partners across top IT and MNC companies.

The institute invites students, graduates, and working professionals to explore upcoming batch schedules and enroll in demo sessions. Enrollment is now open online and offline.
