

Chinese Mathematics Association and Spirit of Math Partner to Bring International Spirit of Math Contest to Taiwan

for 2025-26 School Year

North York, Ontario Nov 17, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Chinese Mathematics Association](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Taiwan for the 2025-26 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration will give Taiwanese students the opportunity to showcase their abilities on an international stage, while growing their confidence and skills which they will need for future success.

"At Spirit of Math, we are dedicated to revolutionizing education for students everywhere," said Kim Langen. "We are excited to support Chinese Mathematics Association in their mission to cultivate young talent and help students realize their greatest potential."

The Chinese Mathematics Association joins this initiative as a dedicated partner in advancing mathematics education across borders. As a non-profit organization based in Taiwan, the Association plays a vital role in organizing and co-organizing mathematics events both domestically and internationally. Its mission is to inspire students' interest in mathematics, nurture their passion for the subject, and contribute meaningfully to the development of math education in Taiwan.

This collaboration reflects a shared commitment to fostering global engagement through academic excellence. By connecting Taiwanese students with international platforms, the Chinese Mathematics Association helps cultivate curiosity, confidence, and a lifelong love for learning. Together, we aim to empower the next generation of mathematical thinkers and expand access to enriching educational experiences worldwide.

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.

About Chinese Mathematics Association

The Chinese Mathematics Association is a Taiwan-based non-profit organization dedicated to promoting mathematics education and inspiring student engagement. Through the organization and co-organization of mathematics events at both national and international levels, the Association fosters a deep appreciation for the subject among learners. Its mission is to spark curiosity, encourage exploration, and support the growth of mathematics education in Taiwan and beyond.
