

CPAP Online Massive Upcoming Black Friday Sale

Sydney, New South Wales Dec 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - CPAP Online is preparing to launch one of its biggest Black Friday events yet, giving Australians a rare opportunity to secure major savings on high-quality sleep therapy equipment. This year's announcement has already generated excitement, with early indications that both ResMed and Löwenstein will feature heavily in the upcoming deals.

Customers can expect substantial discounts on popular ResMed machines, including anticipated specials on the AirSense 10 and AirSense 11 AutoSet. These models are known for their quiet performance, smart comfort features, and reliable nightly support. There is also talk of bundle offers that may include humidifiers, masks, or travel accessories at significantly reduced prices. For anyone looking to begin therapy or upgrade older equipment, this sale could be one of the most cost-effective opportunities of the year.

Löwenstein products are also expected to be part of the major release. Shoppers may see price drops on the well-regarded Prisma SMART range and a selection of premium masks designed for long-term comfort. With a reputation for engineering quality and durability, Löwenstein deals are always well received, and this year looks no different.

In addition to machine specials, [CPAP Online's Black Friday](#) sale is expected to offer discounts on essentials such as tubing, cushions, filters, and other accessories. These items are used daily, and

stocking up during Black Friday can make a meaningful difference in long-term therapy costs.

This announcement marks a key moment for the CPAP community. CPAP Online encourages customers to join its mailing list for early access updates, as stock is expected to move quickly. The Black Friday sale is shaping up to be one of the most valuable events of the year for sleep therapy users across Australia.
