

Drive Your Dream Introduces a Smarter Long-Term Car Rental Model in the UAE — Rent for Less, Then Buy at a Big Discount

The company introduces new lease-to-own options as Dubai drivers increasingly choose monthly plans over long-term car ownership commitments.

Dubai, United Arab Emirates Nov 24, 2025 ([IssueWire.com](https://www.issuewire.com)) - Drive Your Dream has launched a new long-term car rental model designed to give customers a more affordable and transparent path to car ownership in the UAE. Instead of paying high upfront fees or committing to expensive monthly rentals, customers can now rent a vehicle long-term at significantly lower monthly rates — and then purchase the car at the end of the contract with a major discount, since they've already been renting it.

The new model is available now through **DriveYoursDream.com**, offering an easier way for residents, professionals, and newcomers to get a car without dealing with complex loan procedures or large down payments.

“People in the UAE want flexibility — not heavy debt or big upfront costs,” said the company’s General Manager, Yuri Rak. **“With our system, you rent the car long term for less than traditional rental companies charge. And when your rental ends, you can choose to buy the car at a big discount because you’ve already been using it. It’s a simple, practical way to own a car without financial stress.”**

Long-Term Rental With Real Benefits

Drive Your Dream offers:

1. Long-Term Rental at Lower Monthly Cost

Customers pay less than traditional car rental prices, making it ideal for residents looking for a stable monthly payment without hidden fees.

2. Rent-to-Own Option

At the end of the rental period, customers can purchase the car for a heavily discounted amount — essentially paying less because part of the car's value has already been covered through the rental term.

3. Fast Approval for All Customer Types

Suitable for employees, freelancers, small business owners, and newcomers who need a car without the complexity of bank financing.

Simple Digital Experience

Through DriveYoursDream.com, customers can:

- Browse available cars with clear monthly rental prices
- Apply online in minutes
- Get fast approval through WhatsApp or phone
- Receive the car at their doorstep
- Decide at the end whether they want to buy it or swap it

The process gives customers more control and removes financial pressure.

Supporting Smarter Mobility in the UAE

The UAE's mobility landscape is shifting from traditional car loans toward flexible, subscription-style solutions. Drive Your Dream supports this shift by making long-term rental more affordable — while still giving customers the ability to become owners later.

“It's the perfect mix of flexibility and long-term value,” added Yurii. **“Rent affordably now, enjoy the car, and when you're ready — buy it with a meaningful discount.”**

About Drive Your Dream

Drive Your Dream is a UAE-based provider of long-term car rental and rent-to-own solutions. The company offers a wide range of vehicles — from compact cars to premium models — using a simple monthly rental system that gives customers the freedom to drive, save, and eventually own the car at a reduced price.
