

## “ENCOUNTERS with GOD” Praised by Pacific Book Review

William K. Dorrance blends memoir, science, and spiritual testimony to answer life’s deepest questions

**Los Angeles, California Nov 12, 2025** ([Issuewire.com](http://Issuewire.com)) - [\*“ENCOUNTERS with GOD”\*](#) by William K. Dorrance has been commended by Pacific Book Review for its intimate yet evidence-based exploration of spirituality, consciousness, and the reality of God. The review lauds the book as “accessible but intimate,” noting that it “offers inspiration for anyone who has ever longed for a glimpse of the sacred in everyday life.”

Dorrance’s work takes readers on a journey through both personal experiences and scientific evidence to confront age-old questions: *Why does suffering exist? Do we have souls? Is there proof of an afterlife?* Backed by decades of research into near-death experiences, reincarnation memories, psychic phenomena, and deathbed visions, *“ENCOUNTERS with GOD”* presents overwhelming evidence for the existence of souls and life beyond death.

The Pacific Book Review highlights the author’s conviction that “mystical experiences in the form of

psychic visions, meditation, or death visions are far more common and potent than many would assume.” Written in straightforward and simple prose, the book avoids unnecessary embellishment, instead offering clarity and thoughtful reflection. By interweaving personal testimony with empirical studies, Dorrance bridges the gap between spirituality and science, presenting a narrative that is both intellectually satisfying and spiritually uplifting.

A retired optometrist, William K. Dorrance brings nearly forty years of research and reflection into this work. His experiences, combined with a lifelong pursuit of spiritual truth, make “*ENCOUNTERS with GOD*” a rare contribution to the discussion of faith, science, and human consciousness.
