

Evoglide Expands European E-Mobility Franchise Network and Opens New Territories for 2025-2026

Electric bike & scooter franchise model now available across Europe, offering full support, technology, and brand system to new partners.

Stockholm, Sweden Nov 3, 2025 ([IssueWire.com](https://www.issuewire.com)) - Evoglide, a European e-mobility business franchise platform, has announced its official international expansion following a successful 90-day pilot program and confirmed franchise agreements in Sweden, the United Kingdom, and Spain. The company is now opening exclusive franchise territories across Europe as demand for sustainable transportation and local mobility businesses accelerates.

During its pilot phase, Evoglide validated demand and unit economics for its scalable e-mobility business model, achieving:

- 194 completed orders
- 233 items delivered
- 1,627,242 SEK (€114,000) Gross Sales
- 100,000 SEK marketing cost (~7.7% of turnover)
- Return Rate: 4%
- Roas: 13
- 32000 unique visitors in 90 days

“Our mission is to build Europe’s most accessible and profitable e-mobility franchise network,” said Simon, Founder & CEO of Evoglide.

“With Sweden, the UK, and Spain already secured, we are now opening the remaining territories to entrepreneurs who want to lead the expansion of sustainable mobility in their markets.”

???? Exclusive Territories Now Open
