

Founder Trevor R. Lundgreen Launches The Executive Access Blueprint™ — A Precision System Turning Job Seekers into Peers

Built for Operators ready to lead, The Executive Access Blueprint™ helps professionals land executive-level interviews — fast — without a network or insider connections.

Layton, Utah Nov 5, 2025 ([IssueWire.com](https://www.issuewire.com)) - Trevor R. Lundgreen, founder of **Lundgreen Services LLC**, has officially launched **The Executive Access Blueprint™**, a tactical career-advancement system that helps professionals earn executive access, credibility, and leadership presence.

The Blueprint distills Lundgreen's proprietary **Status-Align™ Protocol**—a 9-stage framework that redefines how candidates position themselves in high-level hiring conversations. Rather than applying as job seekers, users learn to operate as strategic partners who communicate with clarity, composure, and confidence.

Over four months, Lundgreen used this process to reach final-round interviews with billion-dollar founders and CEOs—without referrals, recruiters, or existing connections. Every opportunity was self-sourced through structure, messaging, and precision.

“Most people apply like applicants,” said Lundgreen. “I wanted to operate like a peer. The *Executive Access Blueprint™* shows professionals how to demonstrate value instead of asking for it.”

The full Blueprint includes more than 50 pages of frameworks, real-world case studies, and ready-to-deploy templates such as the *1-Page Business Proposal* and *Executive Follow-Up System*.

A free two-part preview—the **7-Day Status-Align™ Lite** micro-course—is available for immediate download at executiveaccessblueprint.com

The Executive Access Blueprint™ is now available worldwide through **Lundgreen Services LLC** at executiveaccessblueprint.com
