

From Vietnam to the World: Viettel Software Delivers International-Quality ITO and Software Development Services

Viettel Software Drives Multi-Industry Digital Transformation with AI, Cloud, and Big Data Solutions

Ha noi, Hanoi Nov 19, 2025 ([IssueWire.com](https://www.IssueWire.com)) - **Viettel Software (VTIT)**, the core software arm of Viettel Group—Vietnam’s largest technology and telecommunications corporation with a strong global presence—provides international-standard ITO services, software development, and digital transformation solutions for government agencies and multi-industry enterprises worldwide.

With more than 1,500 internationally certified engineers and globally recognized quality systems including ISO 9001 and CMMI Level 5, Viettel Software is known for its secure, disciplined, and high-quality software outsourcing capabilities, making it one of the most trusted ITO partners from Vietnam.

VTIT delivers a comprehensive ecosystem of industry-specific platforms and enterprise solutions across Telecommunications, Banking–Finance–Insurance, Aviation, and Enterprise Operations, leveraging advanced technologies such as AI Agent, Big Data, and Cloud Computing. The company’s excellence has been recognized through multiple prestigious awards, including Sao Khue, Vietnam Digital Awards, and the Gold Stevie Awards for Technology Excellence 2025 for Viettel SkyBook, an end-to-end digital transformation platform for the aviation industry.

With strong technical expertise and proven delivery capability, Viettel Software positions itself as a leading ITO and software outsourcing provider from Vietnam, committed to supporting global enterprises in accelerating digital transformation, optimizing operations, and scaling innovation.
