

Global Nursing Congress and Healthcare Innovation Summit

GloNurse Summit 2026

London, England Nov 17, 2025 ([IssueWire.com](https://www.issuewire.com)) - Join the Global Nursing Congress and Healthcare Innovation Summit—GloNurse Summit 2026—on August 17–19, 2026 in London, UK & Online. Built for impact, this [Nursing Congress](#) international hybrid meeting focuses on turning research and technology into safe, equitable care at scale. Participants include clinical nurses, NPs, midwives, educators, researchers, executives, informatics teams, and community health leaders.

The [Nursing Science Event](#) agenda spans acute, primary, and community settings: chronic disease management, emergency and critical care updates, women's and children's health, mental health and addictions, oncology, perioperative and postoperative care, geriatrics and frailty, rehabilitation, and home-based services. The [Nursing Conferences](#) is Cross-cutting sessions cover quality improvement, safety science, human factors, infection prevention, health literacy, cultural competence, and inter professional teamwork. A dedicated digital health stream explores AI-assisted triage, virtual wards, telehealth, data governance, and practical change-management.

GloNurse Summit 2026 prioritises interactive learning—skills workshops, case reviews, implementation toolkits, and poster exchanges—so attendees leave with resources they can use immediately. Early-career professionals and students are invited to present projects and build networks; leaders can compare staffing, education, and retention initiatives that support high-performing teams.

With both on-site and virtual options, the Summit enables global participation and sustained collaboration. If you are advancing patient-centred care, modernising curricula, evaluating technologies, or shaping policy, this event belongs on your calendar.
