

India's First Episkin-L'Oreal Innovation Challenge To Conclude With Grand Finale In Bengaluru

Bioreimagine 2025 Challenge to Innovate using 3D Human Tissue Models

EPISKIN

L'ORÉAL RESEARCH & INNOVATION

Mumbai, Maharashtra Nov 24, 2025 ([Issuewire.com](https://www.issuewire.com)) - Krishgen Biosystems Private Limited, India, in collaboration with EPISKIN SA, France (L'Oreal Research & Innovation; world leader's in tissue engineering for in vitro human skin and epithelial models) will host the Grand Finale of the BioReImagine – Innovation Challenge 2025 on Thursday, November 27, 2025 - and we invite members to attend for an evening of innovation data, networking and keynote talks.

The event marks the culmination of India's first national-level innovation challenge promoting ethical, non-animal testing research using EPISKIN's reconstructed human tissue models. The top three finalists from across India will present their proof-of-concept projects to an expert jury comprising scientists, industry leaders, and regulatory professionals. Keynote sessions by senior ADMET and life-science experts will highlight how reconstructed human tissue technologies are transforming predictive toxicology, safety assessment, and regulatory science.

"BioReImagine 2025 is a step toward India's scientific future - where innovation and ethics go hand in hand to offer innovation in skin models in translational research for drug discovery, wound management and cosmetic applications," said Dr Kalpesh Jain, Director, Krishgen Biosystems Private Limited.

Date: November 27, 2025 | Time: 3:00 PM – 7:00 PM | Venue: NIMHANS Convention Centre, Bengaluru
