

Keyoma Launches 100% Pure Batana Oil Infused with Rosemary

A Natural Solution to Fight Hair Loss and Balding

New York City, New York Nov 3, 2025 ([IssueWire.com](https://www.issuewire.com)) - **Keyoma**, a rising leader in natural wellness and hair care innovation, proudly announces the official release of its newest product — **Keyoma Batana Oil Infused with Rosemary**. This 100% organic, cold-pressed hair oil is designed to **fight hair loss, reduce balding, and restore natural shine**, offering consumers a pure, chemical-free alternative for achieving stronger, healthier hair.

Founded by **Ryan Waranauskas** in **2024**, Keyoma has quickly gained recognition for its commitment to sustainability, ethical sourcing, and effectiveness. By blending ancient botanical wisdom with modern science, Keyoma delivers hair care products that are both eco-friendly and transformative.

The Power of Nature: Batana Oil Meets Rosemary

At the heart of this breakthrough formula is **Batana Oil**, extracted from the American Palm tree (*Elaeis*

oleifera) and long revered by the indigenous Miskito people of Central America — known as the “Tawira,” or “People of Beautiful Hair.” This nutrient-rich oil is celebrated for its ability to **revitalize damaged hair, stimulate regrowth, and restore deep moisture** to the scalp.

Paired with **Rosemary Oil**, which is clinically shown to enhance scalp circulation and encourage new hair growth, this powerful blend becomes an effective natural remedy for **thinning hair and early-stage balding**. Together, they help strengthen follicles, promote thickness, and return hair to its natural lustre.

“Our goal is to provide a truly pure and effective product made with honesty and care,” said **Ryan Waranauskas**, Owner of Keyoma. “Every bottle of Keyoma Batana Oil Infused with Rosemary is handmade with love, cruelty-free, and free from dyes, additives, and synthetic chemicals. We’re redefining hair restoration through the power of nature.”

Ethically Sourced and Handcrafted in the USA

Each batch of **Keyoma Batana Oil** is **cold-pressed and handcrafted in small quantities** to ensure maximum potency and freshness. The oil is packaged in eco-friendly glass bottles to preserve quality while supporting the company’s mission of sustainability and zero waste.

Keyoma’s ingredients are **ethically sourced** from trusted local and international suppliers, ensuring fair trade and environmental responsibility throughout every step of production.

Customer Praise and Growing Demand

Early **Keyoma Health reviews** have been overwhelmingly positive. Customers report thicker, softer, and shinier hair after just a few weeks of use. Many describe the oil as a “miracle in a bottle” that revives brittle strands and promotes healthy, visible regrowth.

Availability

Consumers can now **buy Batana Oil online** directly at <https://keyomahealth.com/>. The product ships nationwide and is available in multiple bottle sizes, making it easy to incorporate into any hair care routine.
