

# Lailo Lema Drops New Book Title Amid Recent Bookstore Sighting

Her appearance fueled speculation about her upcoming project

**Panama City, Florida Dec 3, 2025 (IssueWire.com)** - Lailo Lema, dark fiction author, was spotted at a bookstore looking at books in the spicy and horror sections. She was spotted in daylight this past Saturday. Fans speculate that she was looking for inspiration for her upcoming debut novel.

She was seen browsing diverse authors in horror and new releases trending on booktok. The author was also seen skimming through the classics like Edgar Allan Poe and Bram Stoker. Fans believe that her next novel may have something to do with the recent appearance, due to something she mentioned in an interview with Authors Wiki.

In the recent interview, she shared about her upcoming debut novel, Sick Punt.

"I am working on a little project titled, 'Sick Punt.' This will be my debut novel and I couldn't be more excited about it. I can't say too much but there will be living dolls, bully boyfriends, and humiliation rituals."

It's possible that the author was looking for inspiration for her upcoming story, hence the browsing of the classics and staying up with trends in dark fiction.

It was also stated in the interview that her work pulls from various genres and explores the seductive nature of the darkness.

" Her work blurs the line between desire and dread. She is a pioneer of mixed genre, her favorite being, erotic horror and gothic fairytales."

Fans have pieced together more about where she gets inspired to create fantastical, dark and sensual stories.

In recent years, dark stories have gained traction, sparking conversation and buzz around the taboo nature of morally grey characters. Readers are trending towards characters with a dark side, perhaps leading to what some say is a destigmatization of transgressive literature.

The author continues to resurface in the public eye, raising questions as to what we can expect from this emerging author and how the draw to darkness remains relevant in literature today.
