

New Fantasy Title Reimagines the Power of Magic, Healing, and Hope

“K.L. Frase’s *Magic, Earth & Us: Pekial’s Wish*” Blends Mythical Lore with Timely Environmental Themes

Los Angeles, California Nov 12, 2025 ([Issuewire.com](https://www.issuewire.com)) - Author K.L. Frase invites readers on a fantastical journey of healing and heart in “*Magic, Earth & Us: Pekial’s Wish*,” a thought-provoking fantasy anthology that explores the intersection of magic, compassion, and Earth’s survival.

Set in a time long before humans walked the Earth, the book introduces readers to a race of magical fairies who sacrifice their power to protect the planet from devastation. Leading them is Pekial, a fairy whose gift is foresight—one that enables her to prepare Earth for a crisis that will come with the fall of an asteroid. Though the magic is buried for millennia, it begins to return through the heartfelt wishes of unselfish people and animals seeking a better world.

Framed in a series of touching standalone tales, the book illustrates how everyday acts of kindness and determination can spark global healing. It’s a collection rich with moral lessons and vibrant characters,

making it ideal for young readers, fantasy lovers, and families alike.

Critics agree the book delivers both emotional and imaginative impact. In a *US Review of Books* feature, reviewer Michael Radon writes:

“Magic is a unifying constant element in each of these stories, but values such as kindness, compassion, and community are consistently embodied by the characters in focus.”

K.L. Frase lives in Seattle and enjoys creating stories during quiet nights. She hopes her books inspire others to believe in wonder and do good.

“Magic, Earth & Us: Pekial’s Wish” is available now in print and digital formats.
