To meet the growing demand for seamless digital payments, NIFI Payments has introduced developer-friendly, secure, and high-uptime APIs. These APIs help businesses, apps, websites, and NBFCs integrate payment solutions quickly and easily.

API-Based AEPS (Aadhaar Enabled Payment System)

The upgraded AEPS API helps businesses offer:

- 1- Cash Withdrawal
- 2- Balance Inquiry
- 3- Mini Statement
- 4- Aadhaar-Based Secure Authentication
- 5- High Success-Rate Transactions

Powered by a robust backend infrastructure, NIFI Payments ensures smooth AEPS service even in high-load environments.

API-Based Domestic Money Transfer (DMT)

The new DMT API simplifies instant fund transfers, enabling:

- 1- Real-time money transfers to any bank
- 2- Verified and secure processing
- 3- Low failure rates
- 4- Safe KYC-supported transactions

Retailers and apps can now easily offer quick banking services to customers.

API-Based Payout Service

For businesses, NIFI Payments offers a robust payout API that supports:

- 1- Instant salary disbursements
- 2- Vendor payments
- 3- Cashback and refund settlements
- 4- One-click bulk payments
- 5- High-speed automated transfers

This solution is ideal for startups, e-commerce platforms, NBFCs, and online businesses.

Why Businesses Are Choosing NIFI Payments

NIFI Payments stands out in India's fintech space with the following features:

- 1- 99.9% uptime for uninterrupted service
- 2- Multi-layer security and encryption for secure payments
- 3- Extremely fast processing and robust server capacity
- 4- Easy API documentation and integration support
- 5- Affordable pricing and higher commissions
- 6- 24/7 customer and technical support

The platform is designed to help retailers and enterprises expand their service offerings and increase their digital revenue.

Official Statement

The NIFI Payments team shared:

“Our new API-based services demonstrate our commitment to transforming India's fintech industry. Our goal is to provide secure, fast, and scalable digital solutions that help businesses run smoothly and earn more.”

About NIFI Payments

NIFI Payments is a leading Indian fintech platform providing AEPS, BBPS, DMT, QR payments, payouts, and digital API solutions. The company helps retailers, agents, shop owners, and enterprises build their own fintech ecosystems with secure and reliable technology.
