Wilmington, North Carolina Nov 13, 2025 ([IssueWire.com](https://www.issuewire.com)) - Literary Titan, a global organization of professional editors, writers, and professors issued a 4-star review of *Beneficial Economics: A Red State Citizens Guide to Crafting A Better Constitution When The Government Fails The Citizens*, by Laurie Thomas Vass, of Gabby Press.

[Literary Titan stated:](#)

The tone [of the book] is urgent, sometimes fiery, and often unapologetic. The author mixes scholarly arguments with plainspoken outrage, and that combination keeps the reader hooked even through pages of constitutional draft language... It's not an easy read, and it's not neutral, but it's brimming with conviction and intellectual fire. People who feel alienated by modern politics might find it empowering, and those who don't agree with Vass will still find it thought-provoking.

Literary Titan asked Vass why this is an important book to publish at this time?

Vass responded:

At this time in the nation's history, the government has strayed from its initial purpose, and is untethered to Madison's constitution. The government has failed the citizens, and the citizens have a natural right to abolish this government and start over, with the principles of 1776, which is what the book's four functions of government are designed to create.

Vass continued, "In the current two-party, first-past-the post political system, red state citizens do not have a political party or political movement that aims to champion their liberty and financial interests. The book is designed to promote a red state citizen consciousness of their own class interests, which depends on the creation of a coherent ideology of freedom."

Vass explained that "Something good will emerge in regional ecosystems when free market decisions are combined with fair constitutional rules that allow all citizens an equal opportunity to attain financial success."

The book is available in both print and audio, for readers who like to listen while they work or drive, directly from the Gabby Press website.
