

Nurse Dawn LLC Brings Professional In-Home Nursing and Foot Care to Seniors Across the Panhandle

Mobile registered nurse Dawn Mathis, RN, launches Nurse Dawn LLC to provide personalized, private-pay in-home care, wellness visits, and foot care for seniors in Washington, Holmes, and Jackson Counties.

Panama City, Florida Nov 11, 2025 ([Issuewire.com](https://www.issuewire.com)) - Nurse Dawn LLC has officially launched concierge, in-home foot and wellness care services for seniors across Washington, Holmes, and Jackson counties. Founded by registered nurse Dawn Mathis, the practice brings professional,

compassionate care directly to clients' homes—eliminating travel barriers and helping families maintain comfort, dignity, and independence.

“For years working in hospice and community health, I saw how stressful clinic visits were for families,” said Nurse Dawn Mathis, RN, founder of Nurse Dawn LLC. “My goal is to make high-quality, respectful care accessible at home—on their schedule, in their own space.”

Unlike traditional home health agencies, Nurse Dawn LLC operates independently, providing self-pay nursing services without the need for a doctor's order or insurance approval. This flexibility allows seniors to receive timely, preventive care without waiting on paperwork, authorizations, or strict eligibility requirements.

The service includes:

- Noninvasive foot care for comfort and mobility
- Wellness checks and health monitoring
- Medication organization reminders
- Caregiver education and support

All care is provided within the Florida Board of Nursing (FL BON) registered nurse scope of practice, with provider coordination and referrals made when medical concerns arise or higher-level interventions are needed. Nurse Dawn LLC follows professional nursing standards, maintains strict infection-control protocols, and provides clear after-visit guidance to empower families and caregivers.

A Local Solution for Rural Seniors

Based in Chipley, Florida, Nurse Dawn LLC serves neighboring rural communities throughout the Florida Panhandle. By focusing on prevention, education, and practical support, the practice helps seniors live safely and confidently at home while giving family caregivers peace of mind.
