

Pioneering the Future of Nanotechnology as One of the Top Graphene Manufacturers in India

Empowering industries with advanced graphene powder and graphene oxide materials through innovation and quality.

The advertisement features a futuristic, glowing blue and purple background with a hexagonal grid pattern. In the center is a sleek, black spray bottle with a blue trigger. The bottle is labeled 'SPRAYABLE GRAPHENE' in large, bold, blue letters. Below this, it says 'UPTO 6 MONTHS' and 'GET INSTANT SHINE'. The ARMi logo is visible in the top left corner. The text 'PREMIUM GRAPHENE OXIDE IN INDIA' is prominently displayed in the middle. Below this, it says 'Get high-purity graphene powder & graphene oxide powder directly from trusted graphene manufacturers in India.' and 'BUY NOW'. The website 'www.arminano.com' is at the bottom left.

PREMIUM GRAPHENE OXIDE IN INDIA

Get high-purity graphene powder & graphene oxide powder directly from trusted graphene manufacturers in India.

BUY NOW

SPRAYABLE GRAPHENE

UPTO 6 MONTHS

Bengaluru, Karnataka Nov 10, 2025 (Issuewire.com) - BTCORP Generique Nano Private Limited, operating under its cutting-edge brand ARMi® Nano, proudly stands among the [top graphene manufacturers in India](#), redefining the standards of material science and nanotechnology. The company has earned its position as a trusted **graphene supplier in India**, specializing in the production of

premium-grade graphene powder and **graphene oxide powder** for research and industrial applications.

With its undeterred attention to innovation, BTCORP is on the forefront of creating new innovations in the field of automotive, energy, coating and electronics that are powered by graphene. The company is known to be one of the most trusted manufacturers of graphene oxide in India and this fact has given the company high quality, performance and consistency in all the products it produces.

Key Offerings:

- **Graphene Powder:** High-conductivity nanomaterial ideal for coatings, composites, and energy storage.
- **Graphene Oxide Powder:** Engineered for excellent dispersibility and strength enhancement.
- **Custom Nanomaterial Solutions:** Tailored for R&D and commercial scalability.

BTCORP Generique Nano Pvt. Ltd. has further established India as a highly competitive nanotechnology centre in the world. Unsaturated R&D strengths, environmental friendly production processes and service-oriented orientation gives BTCORP a moving force in the innovation of the graphene materials and nano-enabled technology.

A spokesperson of the company said that its mission was to enable nanotechnology to be accessible, scalable, and impactful to industries across the world. Our graphene solutions are intended to push the performance and sustainability limits.
