

Premium Talc Manufacturer and Talc Powder Supplier in India

If you are looking for a reliable Talc Powder Supplier or Talc Manufacturer in India, connect with **Pratibha Refractory Minerals** today.

Beijing, China Nov 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Pratibha Refractory Minerals** is a leading [Talc Manufacturer](#) and **Talc Powder Supplier** from India, offering the finest quality talc and soapstone products for industrial and cosmetic applications. With decades of experience in mining, processing, and exporting minerals, we deliver high-purity talc that meets international quality standards.

About Our Talc Powder

Talc, also known as **Soapstone**, is a natural mineral composed mainly of magnesium silicate. It is soft, smooth, and has excellent heat resistance and lubricating properties. These qualities make it highly suitable for use in industries like plastics, paints, paper, cosmetics, rubber, ceramics, and pharmaceuticals.

At **Pratibha Refractory Minerals**, we produce talc powder in various mesh sizes and grades to suit different applications. Our talc is known for:

- High brightness and whiteness
- Smooth texture and excellent dispersion

- Low moisture content
- Uniform particle size distribution

Why Choose Pratibha Refractory Minerals?

As a trusted [Talc Powder Supplier](#), we focus on quality, reliability, and consistency. Our manufacturing process ensures that every batch of talc powder is pure, safe, and perfectly refined.

In-house Quality Testing: Each product undergoes strict laboratory checks.

Customized Solutions: We provide tailored grades for your specific industry.

Global Export Network: Supplying to countries like Indonesia, Nigeria, Thailand, Vietnam, Turkey, and more.

Sustainable Mining: We follow eco-friendly extraction and processing methods.

Applications of Talc Powder

Our talc powder is widely used in:

- **Paints & Coatings:** To improve smoothness and prevent cracking.
- **Paper Industry:** For better opacity and printability.
- **Cosmetics:** As a natural base in powders and beauty products.
- **Rubber & Plastics:** To enhance strength and reduce moisture.
- **Ceramics:** For heat resistance and surface finish.

Global Exporter of Talc and Soapstone Powder

We take pride in being one of India's most reputed **Talc Manufacturers** and **Talc Powder Suppliers**, serving clients across Asia, Africa, and the Middle East. Our commitment to quality, customer satisfaction, and timely delivery has made us a preferred partner for industries worldwide.
