

Pure Business Capital, Inc. Expands Access to Fast-Track Hard Money Loans and Unsecured Funding Solutions for Businesses

\$10M Hard Money Loans – No Credit Check, 3-5 Day Close! Plus \$1M Unsecured via Shelf Corps & \$200K+ Agent Roles!

Westchester, Illinois Nov 5, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Pure Business Capital, Inc., a leading provider of innovative financing solutions for real estate investors and business owners, today announced

enhanced services designed to empower ambitious entrepreneurs with rapid capital access. Under the leadership of Founder and CEO [Mark Shelton](#), the company is streamlining hard money loans up to \$10 million from a network of private investors—featuring no credit checks and closings in as little as 3-5 business days. Additionally, Pure Business Capital is introducing aged, credit-ready shelf corporations that qualify for up to \$1 million in unsecured funding, alongside a nationwide recruitment drive for motivated agents poised to earn over \$200,000 annually.

In a competitive real estate and business landscape, traditional lenders often impose lengthy approvals, stringent credit requirements, and bureaucratic hurdles that delay opportunities. Pure Business Capital addresses these pain points head-on with tailored, asset-based financing that prioritizes speed and flexibility. "Our mission is to fuel growth without the red tape," said Mark Shelton, Founder and CEO of Pure Business Capital, Inc. "Whether it's a real estate flipper needing quick capital for a distressed property or a startup scaling operations, we're removing barriers so visionaries can act decisively. With our private investor network, we've funded over \$50 million in deals this year alone, and we're just getting started."

Key offerings include:

Hard Money Loans: Up to \$10 million for fix-and-flip projects, bridge financing, and commercial ventures. No personal credit checks—decisions based on property value and deal strength. Funds disburse in 3-5 business days, enabling clients to seize time-sensitive opportunities.

Aged Shelf Corporations: Pre-established entities with clean histories and optimized credit profiles, ready for immediate use. These "shelf" companies can secure up to \$1 million in unsecured business lines of credit, ideal for e-commerce launches, expansions, or credit-building without starting from scratch.

To meet surging demand, Pure Business Capital is actively hiring remote agents nationwide. Successful candidates will join a high-performance team, leveraging proven marketing tools, lead generation support, and performance-based commissions. Top earners close just a few deals per month to surpass \$200,000 in annual income—no prior experience or licensing required, with comprehensive training provided. "We're building a team of closers who thrive on results," Shelton added. "If you're driven and ready to partner with private investors on lucrative deals, this is your gateway to financial independence."

Pure Business Capital's model emphasizes ethical, transparent funding, drawing from Shelton's two decades in real estate finance. The company has empowered hundreds of clients across the U.S., from Naperville developers to East Coast entrepreneurs, by connecting them directly to vetted private lenders.
