

ReNEW Dental Offers Free Exams and X-rays for Veterans This November

Dr. Elaine Wu Honors Service Members With Complimentary Preventive Care at ReNEW Dental Denture & Implant Center in Tewksbury

Tewksbury, Massachusetts Nov 5, 2025 ([Issuewire.com](https://www.issuewire.com)) - In recognition of Veterans Day and to honor those who have served, ReNEW Dental Denture & Implant Center is offering 10% off a snap on lower overdenture and comprehensive oral exams to U.S. military veterans throughout the month of November (valid military ID required).

Led by Dr. Elaine Wu, DMD, the practice is opening its doors to veterans seeking a fresh start on their oral health, with no cost and no obligation.

“Many veterans carry dental concerns they’ve put off for years,” said Dr. Wu. “We want to create a space where they feel seen, cared for, and supported in taking the first step toward renewed health.”

Dr. Wu, a graduate of Boston University School of Dental Medicine and a Kois Center-trained Graduate, brings a unique blend of precision, science, and warmth to every appointment. Known for her work in implant dentistry and full smile rehabilitation, she uses digital diagnostics and advanced tools to deliver care with accuracy and comfort.

As part of the **Veterans Smile Free** initiative, ReNEW Dental will provide:

- A **comprehensive oral exam and 2 or 3D digital scan**
- Personalized insights on long-term health and dental restoration options

These visits also include screening for conditions that commonly affect systemic health, including inflammation and risk indicators linked to heart disease, diabetes, and Alzheimer's.

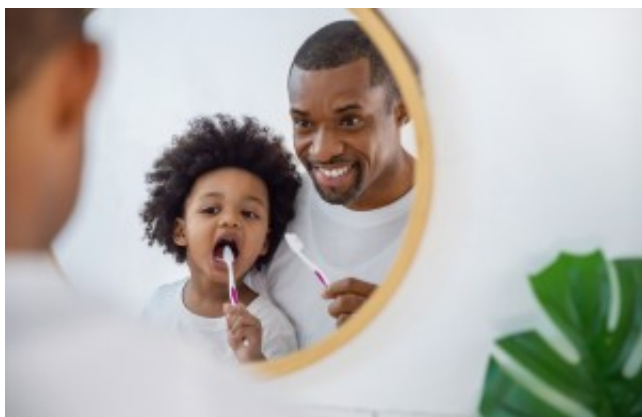

"Our goal is not just to polish teeth," Dr. Wu added. "It's to help veterans understand how oral health connects to their overall wellness. Every smile we care for is an opportunity to support a longer, healthier life."

Appointments are limited and must be scheduled in advance. Veterans or family members may call the office or visit the practice's website to book.
