New York City, New York Nov 5, 2025 ([Issuewire.com](https://www.issuewire.com)) - ServicePlus Home Warranty, a trusted name in home warranty solutions, is proud to announce the launch of its enhanced [extended protection plan](#), designed to provide homeowners with even more comprehensive and affordable coverage for their home systems and appliances.

With rising repair costs and increasing consumer demand for reliable home coverage, ServicePlus's upgraded **extended service plans** offer peace of mind and financial protection that safeguards homeowners from unexpected breakdowns and costly repairs.

Responding to Homeowner Needs with Better Coverage

Homeownership comes with many responsibilities, including the maintenance and repair of crucial household appliances and systems. Unexpected failures of HVAC units, water heaters, refrigerators, or plumbing can quickly become expensive emergencies.

Recognizing these challenges, ServicePlus has revamped its **extended protection plan** offerings to include more extensive coverage options, flexible pricing, and additional services tailored to diverse homeowner needs.

What's New in the Extended Protection Plans?

The upgraded **extended service plans** from ServicePlus include:

- **Broader Coverage:** Protection for a wider range of home systems and appliances, including HVAC units, electrical systems, plumbing, kitchen appliances, and more.
- **Customizable Options:** Homeowners can tailor their plan based on their specific needs, adding coverage for pools, well pumps, septic systems, and additional appliances.
- **Affordable Pricing:** Flexible payment plans and competitive premiums designed to fit various budgets without compromising coverage quality.
- **Fast, Professional Repairs:** Access to a network of licensed, vetted technicians who provide timely, high-quality service with transparent pricing.
- **Simple Claims Process:** Easy-to-use digital claims submission and responsive customer support that streamline repair requests.

The Value of Extended Protection Plans for Homeowners

Extended protection plans are critical in today's housing market where repair costs continue to rise. Many homeowners lack the time, expertise, or resources to handle unexpected breakdowns efficiently. ServicePlus's extended service plans provide a safety net, minimizing financial surprises and protecting one of the most significant investments — the home.

Studies show that a typical major appliance or system repair can cost between \$500 and \$5,000 depending on the issue. ServicePlus's **extended protection plan** allows homeowners to avoid these large out-of-pocket expenses by covering the repair or replacement costs with only a small service call fee.
