

Top Chinese Wire & Cable Machinery Manufacturers — Technology Upgrades Driving Global Conductor Production Efficiency

Top Chinese Wire & Cable Machinery Manufacturers — Technology Upgrades Driving Global Conductor Production Efficiency

HONTA
Better choice

As global demand for efficient wire and cable production rises, Chinese manufacturers like HONTA are leading the charge with innovative Multiwire Drawing Machine solutions that enhance productivity and reduce operational costs.

HONTA: Pioneering Advanced Wire & Cable Machinery

Established in September 2006, **HONTA** has dedicated nearly two decades to advancing cable conductor drawing and stranding technology. With a second production base, HONTA INC., established in the United States in 2017, the company has solidified its position as a global leader in wire and cable equipment. HONTA's product portfolio includes high-performance systems such as the **copper rod breakdown machine**, **aluminum rod breakdown machine**, and advanced **multiwire drawing machine** models like the **8 wires multiwire drawing machine**, **16 wires multiwire drawing machine**, **24 wires multiwire drawing machine**, and **32 wires multiwire drawing machine**. These machines are renowned for their high speed, efficiency, automation, and user-friendly design.

Certifications & Quality Assurance: HONTA upholds international standards with certifications including **ISO 9001** for quality management, **ISO 14001** for environmental management, and **UDEM International Certification**, ensuring reliability and compliance for global clients.

Key Products & Technological Innovations

- [Rod Breakdown with Annealer Machine](#): Integrates annealing for copper and aluminum, optimizing conductivity and flexibility.
- [Individual Motors Multiwire Drawing Machine](#): Offers precise control and energy efficiency, reducing maintenance downtime.
- [Wire Take Up Machine & Double Spooler](#): Enhances winding efficiency with automated basket coiler systems.
- [Inline Annealer Machine](#): Provides continuous processing for improved wire quality and production speed.

HONTA's machinery supports a production range from 0.10mm to 1.37mm, catering to diverse industrial needs. Recent industry trends highlight a shift towards automation and eco-friendly practices, with HONTA's equipment aligning with these demands through energy-saving features and reduced waste.

Global Impact & Client Collaboration

HONTA has fostered long-term partnerships with renowned cable companies worldwide, supplying equipment that drives efficiency in sectors like energy, telecommunications, and automotive. The company's participation in events like the **2025 Atlanta Inter Wire Conference & Trade Exposition** underscores its commitment to global engagement and innovation.

Contact HONTA for Customized Solutions

For inquiries on the HONTA **wire drawing machine** or other **wire and cable equipment**, reach out via:

- Phone: **0086 182 6287 9467**
- WhatsApp: **0086 187 5292 2675**
- WeChat: **wtammy0631**

- Email: **tammy@jshonta.com**
- Website: www.jshonta.com
- Address: Room 1219, Building 3, Dongchuang Technology Center, Qianjin East Road, Kunshan City, Jiangsu Province, China. Zip: 215300

By leveraging HONTA's expertise in **wire and cable machine manufacturers**, businesses can achieve higher production yields, lower costs, and enhanced product quality, positioning them competitively in the global market.
