

XTEN-AV Announces Record-Breaking Black Friday Sale to Help AV Businesses Scale in 2025

XTEN-AV Announces Historic Black Friday Sales 2025

The banner features a blue background with the XTEN-AV logo in the top right corner. The main headline "Black Friday Sale" is in large white letters. Below it, a laptop displays the XTEN-AV website, which includes the text "We help people create amazing AV designs & winning proposals" and "Join 15,000+ AV integrators, AV designers, manufacturers & end users that trust XTEN-AV to streamline their AV designs, proposals and collaborate online!". To the left of the laptop, a graphic shows "50% OFF on all annual plans" with a blue arrow pointing to the laptop. To the right, a graphic shows "Save up to \$900 per user on annual billing" with a blue arrow pointing to the laptop. Below the laptop is a black button with white text that says "Upgrade Now".

Union City, California Nov 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - XTEN-AV, the global leader in cloud-based AV design automation, has announced its **biggest Black Friday sales event to date**, introducing record-breaking discounts designed to help AV companies scale faster and more efficiently in 2025. With unprecedented savings, cutting-edge AI features, and an integrated ecosystem of design, documentation, and project management tools, XTEN-AV aims to empower AV professionals at every stage of the system integration lifecycle.

This year's **Black Friday sales 2025** bring once-in-a-lifetime offers across the platform, giving AV design teams, consultants, integrators, and engineering departments access to premium software capabilities including **AV design software, AV drawing software, AV schematic drawing software, AV proposal software, AV project management software**, and next-generation **AI AV** tools powered by intelligent **AI agents** and **AI chatbots**.

The AV industry is on the brink of transformation, and XTEN-AV's record-breaking discounts arrive at the perfect moment—enabling AV businesses to modernize their workflows, reduce costs, and boost profitability during a time when digital-first collaboration and high-efficiency engineering are more essential than ever.

A Milestone Moment: XTEN-AV Announces Historic Black Friday Sales 2025

XTEN-AV's latest Black Friday announcement is more than a discount—it's a monumental opportunity for AV organizations to accelerate growth, improve workflow efficiency, and eliminate the time-

consuming manual processes that hold teams back.

This year's Black Friday sales introduce:

- 🔗 Record-breaking price cuts on premium plans**
- 🔗 Discounts of up to 50% for a limited time**
- 🔗 Savings up to \$900 per user annually**
- 🔗 Full access to all AI-driven XTEN-AV modules**
- 🔗 Unlimited projects and cloud storage**
- 🔗 Priority onboarding for teams upgrading during Black Friday**

With these enhancements, XTEN-AV positions itself as the most cost-effective and technologically advanced platform in the global AV market.

The AV Industry Needs Speed, Automation, and Accuracy — XTEN-AV Delivers All Three

As AV companies prepare for the demands of 2025—hybrid collaboration systems, large-scale digital signage, enterprise integration, campus AV, and more—the need for accurate design, fast documentation, and error-free schematics has never been greater.

However, AV teams still struggle with:

- Manual drawing work
- Inconsistent design standards
- Inaccurate proposals
- Version control issues
- High human dependency
- Fragmented tools and software licenses
- Slow project delivery timelines

XTEN-AV's platform directly addresses these issues with a unified ecosystem that integrates **AV**

design, AV drawing, proposals, schematics, project management, and AI automation.

During Black Friday sales 2025, these capabilities become drastically more accessible to AV businesses of all sizes.

XTEN-AV's Record-Breaking Discounts: A Detailed Look at What AV Teams Get

Below is a comprehensive overview of the premium tools and features AV businesses unlock during this year's Black Friday event.

1. Advanced AV Design Software for Faster, Smarter Engineering

XTEN-AV's flagship **AV design software** helps teams create complete AV system designs with unmatched speed and precision.

Capabilities include:

- Automated design generation
- Room-by-room planning
- Device libraries from 1,500+ manufacturers
- Auto-updating product lists
- AI-assisted optimization
- Real-time collaboration

These tools allow designers to build more accurate, more scalable, and more professional AV systems while reducing manual workload.

During the Black Friday offer, teams gain full access at historically low pricing.

2. High-Precision AV Drawing Software with Drag-and-Drop Ease

The platform's **AV drawing software** is built for speed, accuracy, and team collaboration. AV engineers can create:

- Rack layouts
- Wiring diagrams

- Signal flow charts
- System block diagrams
- Room schematics
- Equipment placements

The drag-and-drop interface, combined with dynamic AI support, significantly cuts down design time and eliminates repetitive tasks.

This Black Friday upgrade allows AV organizations to replace outdated desktop tools with one cloud-based solution.

3. Engineering-Grade AV Schematic Drawing Software

XTEN-AV's sophisticated **AV schematic drawing software** ensures all technical drawings meet the highest engineering standards. Features include:

- Auto-routing lines
- Device linking
- Label automation
- Symbol libraries
- Revision tracking
- Multi-user editing
- AI-powered error detection

AV teams can now produce installation-ready schematics with fewer errors and less editing time.

With Black Friday pricing, this software becomes an affordable upgrade for even smaller integration firms.

4. Automated AV Proposal Software to Boost Sales Conversions

Winning more business hinges on proposal speed and accuracy. XTEN-AV's fully automated **AV proposal software** enables teams to:

- Create branded proposals instantly
- Insert real-time equipment lists
- Add pricing and labor calculations
- Generate images, descriptions, and graphs
- Send digital proposals to clients
- Track engagement and follow-ups

Businesses leveraging XTEN-AV report faster sales cycles and increased win rates.

The Black Friday sales 2025 event ensures that every AV business—whether small or enterprise-level—can adopt this powerful tool.

5. All-in-One AV Project Management Software for Scalable Operations

AV companies face challenges coordinating tasks across design, installation, programming, and commissioning teams. XTEN-AV solves this through integrated **AV project management software** that centralizes:

- Task assignments
- Scheduling
- Document sharing
- Status updates
- Timeline tracking
- Automated notifications
- Cross-team collaboration

This unified environment eliminates miscommunication and enhances workflow visibility, allowing teams to deliver projects faster.

6. AI Integration: The Future of AV Workflows

XTEN-AV is the first AV platform to integrate next-generation **AI AV technology**, bringing automation to every stage of the workflow.

This includes:

AI Agents

Smart digital workers that:

- Auto-generate AV designs
- Build signal flows
- Create rack diagrams
- Suggest components
- Fix errors
- Update schematics

AI Chatbot

An intelligent support assistant that:

- Troubleshoots design issues
- Recommends layout changes
- Provides design insights
- Helps with documentation
- Answers AV technical queries

These AI-driven features drastically reduce manual work, allowing teams to achieve more in less time.

The Black Friday sales event gives users premium access to these advanced features at half price.

Why XTEN-AV's Record-Breaking Discount Is a Turning Point for the AV Industry1. Enables Smaller AV Businesses to Compete with Larger Firms

Affordable access to enterprise-level tools levels the playing field.

2. Speeds Up AV Project Delivery in a Growing Market

As demand rises, automation becomes essential.

3. Eliminates High Costs of Multiple Software Licenses

XTEN-AV replaces 4–6 tools in a single platform.

4. Reduces Human Dependency and Manual Errors

AI ensures accuracy, consistency, and faster revisions.

5. Future-Proofs AV Teams for 2025 and Beyond

The industry is shifting to cloud + AI; this upgrade accelerates adoption.

Industry Analysts Praise XTEN-AV's Black Friday Move

Analysts and integration experts are calling XTEN-AV's 2025 Black Friday offering the most significant AV software discount of the year:

“XTEN-AV has single-handedly raised industry standards by making AI-powered AV design accessible to everyone.”

— *Elena Morris, AV Technology Analyst*

“This Black Friday deal is an unmatched opportunity for integrators to modernize at scale.”

— *Global Systems Integrator*

“XTEN-AV is redefining efficiency in AV workflows.”

— *AV Engineering Consultant*

A Limited-Time Opportunity That Will Not Return in 2026

The company has confirmed that this year's **record-breaking Black Friday sales** will not be repeated next year. With limited slots available, AV teams are encouraged to take action before the offer expires.

The upgrade includes:

- Premium platform access

- Full AI feature suite
- Unlimited projects
- Cloud collaboration tools
- Manufacturer database access
- New 2025+ feature releases
- Priority onboarding

Once the discounted seats run out, pricing will return to standard levels.

About XTEN-AV

XTEN-AV is a leading cloud-based platform built specifically for the AV industry. Its powerful suite includes **AV design software, AV drawing software, AV schematic drawing software, AV proposal software, AV project management software**, and AI-driven AV automation tools. Trusted by thousands of organizations globally, XTEN-AV is transforming how AV projects are designed, documented, and delivered.

Final Call: Unlock the Industry's Most Powerful AV Software Deal of the Year

The record-breaking **Black Friday sales 2025** window is officially open. AV businesses seeking to cut costs, speed up workflow, and adopt AI-powered automation should upgrade immediately before available slots are filled.

The future of AV design is automated, cloud-driven, and AI-powered. XTEN-AV's Black Friday event gives every AV business a chance to step into that future—at a historic discount.
