

Your Trusted Source for Custom Industrial Furniture

In demanding industrial settings, furniture must be built to withstand tough conditions while ensuring safety and efficiency...

Milpitas, California Nov 4, 2025 ([IssueWire.com](https://www.issuewire.com)) - In demanding industrial settings, furniture must be built to withstand tough conditions while ensuring safety and efficiency. The essentials include durability, strength, corrosion resistance, and the ability to support heavy loads. Combining stainless steel with elements like wood or glass creates the perfect balance of function and design for these environments.

RDM Industrial Products, Inc. specializes in designing and manufacturing premium-quality custom industrial furniture to meet these exact needs.

Wide Range of Products by RDM Industrial Products, Inc.

RDM Industrial products offer a range of products that promise durability and functionality. It is one of the leading and trusted furniture suppliers.

Workstations and Tables

RDM produces a variety of heavy-duty tables designed for workplaces and laboratories. Some key options include:

- **Adjustable Height Tables:** These ergonomically designed tables allow easy height adjustments, enabling workers to switch between sitting and standing postures. This flexibility reduces back and neck strain, minimizes fatigue, and improves productivity. Since the table adapts to different users, there's no need to buy separate furniture for each employee.
- **Mobile Tables:** Built with sturdy wheel castors, these tables can be moved around effortlessly. Once placed, the wheels can be locked to ensure a stable, fixed workstation, offering both mobility and reliability.
- **Light Tables:** Featuring built-in fluorescent lighting beneath the surface, these tables are ideal for applications that require precision and clarity, such as drafting, inspections, medical research, animation, architectural design, and educational projects.

Laboratory Furnishings

RDM also delivers state-of-the-art lab furniture solutions, including:

- **Laboratory Exhaust Fume Hoods:** Essential for safe lab operations, these hoods remove toxic fumes produced during experiments, ensuring a clean and hazard-free working environment.
- **Laminar Flow Clean Air Workstations:** Designed to maintain sterile conditions, these units filter incoming air to eliminate pollutants and release purified air. Both vertical and horizontal flow options are available, making them a perfect choice for labs where contamination control is critical.

Other offerings include stainless steel counters, storage cabinets, and versatile utility carts—each designed with the same commitment to quality and durability. For a complete look at their catalogue, visit [RDM Industrial Products, Inc.](https://www.rdmindustrial.com).

About RDM Industrial Products, Inc.

Established in 1977, RDM Industrial Products, Inc. has built a strong reputation as a dependable Canadian-based supplier of top-tier industrial and laboratory furniture.
