

1100+ IIM Seats Secured - AceIPM Reviews Showcase Success of The New EdTech Model

Noida, Uttar Pradesh Dec 10, 2025 (IssueWire.com) - [AceIPM](#) has reached a significant milestone as student reviews and internal performance data indicate that learners from the platform have secured more than 1100 seats across various IIMs over recent admission cycles. This achievement has positioned the company as one of the most impactful names in the niche segment of IPMAT coaching.

The growth reflected in recent AceIPM reviews can be attributed to its structured teaching methodology, personalised mentoring, and exam-aligned preparation model. Students frequently highlight the clarity of classroom sessions, the depth of strategy discussions, and the accuracy of the mock tests designed to mirror real exam patterns. These elements have contributed to improved outcomes in both IIM Indore and IIM Rohtak entrance processes.

AceIPM was founded by Saksham Chauhan and Swapnil Bhartiya, both of whom cleared the IPMAT exam and completed their BBA from IIM Rohtak. Their direct experience with the exam has shaped the organisation's curriculum design and academic approach. Reviews consistently note that the founder-led involvement creates a more relatable and effective learning environment than broader, generic edtech platforms.

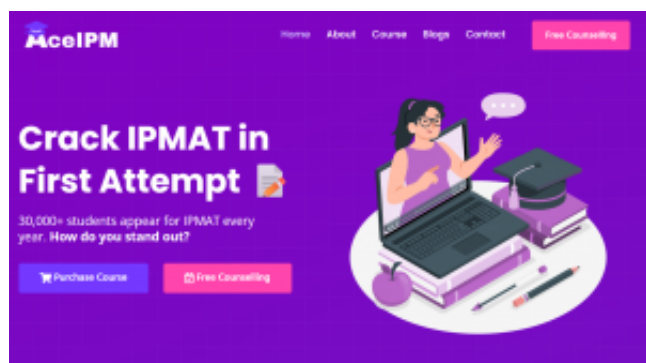

A notable aspect of AceIPM's credibility is the ongoing involvement of co-founder Swapnil Bhartiya, who achieved a 99 percentile in CAT and is currently pursuing his MBA at IIM Ahmedabad, where he also serves as the Career Secretary. Despite his academic commitments, he continues to take sessions for AceIPM students, which reviewers describe as both motivating and deeply insightful.

Industry observers suggest that AceIPM's rise aligns with a larger shift toward specialised, outcome-driven learning models. Students are increasingly choosing focused platforms that offer smaller batches, targeted content, and direct mentorship. AceIPM reviews indicate strong satisfaction with this approach, positioning the organisation as a leader within the IPMAT coaching ecosystem.

With enrolments continuing to increase, AceIPM plans to expand both its offline and online offerings while enhancing analytics-based performance tracking and support systems. The company aims to maintain its central commitment to clarity, student engagement, and exam-specific guidance.

About AceIPM

AceIPM is an education platform dedicated to preparation for IPMAT and other integrated management entrance exams. Founded by two IIM Rohtak alumni, the organisation provides live classes, structured study material, detailed mock tests, and personalised mentorship. AceIPM focuses on delivering exam-relevant learning and strategic clarity to help aspirants secure admission into leading IIM integrated programs.
