

A Supernatural Tale of Justice, Redemption, and the Invisible Forces That Shape Our Fate

BOOMERANG JUSTICE

a novel

FRANÇOIS SIGRIST

Pahrump, Nevada Dec 5, 2025 ([IssueWire.com](https://www.IssueWire.com)) - In *Boomerang Justice*, author François Sigrist delivers a gripping and emotionally charged novel that blends the realities of human suffering with the mysterious workings of a world beyond our own. This cinematic, morally driven narrative follows a widowed police officer who is given a second life—and a mission—to confront injustice where the law has failed. From the first page, the novel explores the fragile line between right and wrong, mercy and consequence, and the extraordinary power of unseen forces determined to restore balance.

A Journey from Loss to Purpose

Gerald Falcone lived through heartbreak, tragedy, and a lifetime of trying to uphold the law—until the law abandoned him. But when a catastrophic moment ends his life, Gerald is pulled into a parallel world where he is offered a choice: return to a future filled with suffering... or become Viborg, an agent of justice capable of crossing worlds, reading hearts, and delivering truth where courts cannot.

What follows is a riveting tapestry of interconnected stories—ordinary people, cruel offenders, and broken souls—each confronted by Viborg’s supernatural ability to expose guilt, protect the innocent, and guide the lost. His encounters are raw, emotional, and deeply human, proving that justice, when it returns, never misses the target.

About the Book

Boomerang Justice unfolds through vivid, self-contained chapters that each reveal the weight of human decisions and the ripple effect of compassion, cruelty, and consequence.

Readers follow Viborg as he:

- **Confronts moral darkness**, including abusers, murderers, cruel opportunists, and those who prey on the vulnerable.
- **Protects the innocent**, like Sophie, an eleven-year-old girl rescued moments before the unthinkable.
- **Restores balance**, giving victims peace, giving offenders a reckoning, and giving the lost a chance at redemption.
- **Navigates the unseen world**, learning to manipulate time, space, thought, and memory as part of an ancient order dedicated to bringing justice where humans cannot.
- **Walks with souls in transition**, helping the dead find closure, like Harry, a devoted husband unable to move on until his wife understands he never meant to leave her behind.

Told with an unflinching honesty and a compassionate voice, *Boomerang Justice* blends supernatural wonder with the everyday realities of suffering, grief, hope, and the possibility of profound change.

A Story of Consequence and Compassion

This is more than a novel about crime and punishment—it is a reflection on the human condition. Sigrist brings readers into intimate moments of fear, courage, heartbreak, and healing, all while reminding us that:

- No act of goodness is wasted.
- No act of cruelty escapes consequence.
- And no soul is beyond transformation.

Early readers describe the book as “*an unforgettable journey through justice, humanity, and the unseen forces that fight for balance when the world refuses to.*”

Why It Matters

In a world where injustice often feels overwhelming, *Boomerang Justice* offers a powerful reimagining of what accountability could look like if truth were undeniable and compassion were mandatory.

For readers who have experienced loss, injustice, or moral struggle, this book is a reminder that:

- Justice has many forms.
- Healing can arrive in unexpected ways.
- And even when the world feels broken, there are forces fighting for balance.

This story resonates deeply with anyone who has ever wished someone would step in when the system could not.

About the Author

François Sigrist is a storyteller with a passion for exploring the intersections of morality, humanity, and the unseen dimensions of justice. Drawing inspiration from real-world struggles and the quiet heroism found in ordinary people, he crafts stories that bridge the emotional and the supernatural. *Boomerang Justice* reflects his belief that compassion and consequence must coexist—and that even in the darkest moments, there is always a path toward balance.
