From KFAAMOS Entertainment to AMG Records: A Story of Transformation

The origins of AMG Records date back to **May 15, 2017**, with the creation of **KFAAMOS Entertainment**, a grassroots initiative formed to support talented musicians lacking industry access. - A refined mission
- Stronger infrastructure
- International collaborations
- A scalable artist development model
- A vision centered on elevating African music globally

The label was officially established as **AMG RECORD LLC** in 2023, marking its transition from a passion project into a professional global music entity.
