SAVE 20-40% ON PROCESSING

Switch to Charged1 Payments.

Fort Lauderdale, Florida Dec 18, 2025 ([IssueWire.com](https://www.issuewire.com)) - **Charged1** is a fast-growing, modern fintech and merchant services company designed to give small and mid-sized businesses a fair, transparent, and cost-effective way to accept payments. In an industry dominated by rising fees, hidden surcharges, and overpriced equipment leases, Charged1 delivers a clean, simple, and honest alternative that helps business owners keep more of their revenue while upgrading to today's best payment technology.

We specialize in zero-fee and dual pricing programs that allow merchants to eliminate up to 95% of their payment processing costs by offering customers a compliant cash and card pricing option. For businesses that prefer traditional processing, Charged1 offers interchange-plus pricing with clear, predictable rates and absolutely no junk fees. Our goal is to give merchants full control over their costs through modern, transparent pricing models.

Charged1 provides a wide range of advanced payment solutions, including NFC and contactless payments, tap-to-pay functionality, mobile wallets, and smart terminal technology. We supply free POS systems and free smart terminals with no long-term contracts or equipment leases, enabling businesses to process payments efficiently without unnecessary overhead.

With next-day funding, Charged1 helps improve cash flow for restaurants, retail stores, contractors, salons, medical offices, and service-based businesses. Every merchant receives real human support never outsourced call centers or automated responses ensuring fast, reliable assistance when it matters most.

Our platform, Charged1ZeroFees.info, serves as the central hub for everything we offer. Merchants can easily compare their current processing statements, explore cost-saving options, learn about available POS systems, request customized quotes, and connect directly with a dedicated representative through a simple, business-friendly experience.

Charged1 stands apart through transparent pricing with no hidden fees, zero-fee and dual pricing programs, free equipment with no long-term leases, support for NFC and mobile wallets, next-day funding, fast approvals, and easy onboarding all backed by a modern fintech brand focused on merchant success.

Small businesses are tired of overpaying to accept payments, and Charged1 was built to solve that problem. While large processors continue to raise rates and lock merchants into restrictive contracts, Charged1 offers a smarter, more affordable alternative designed to put money back into your business.

Merchants switching from providers such as Clover, Toast, and Square often save 20–40% or more annually while gaining better technology and more personalized support. With Charged1, payment processing becomes simple, transparent, and cost-effective.

Charged1 delivers a smarter, cleaner, and more affordable way to accept payments built for businesses that expect more.
