

## Dhruv Upmanyu Sets World Records India Title for AI Cinematic Restoration with ‘Mere Sai Guruvar’

New release serves as a digital ‘Guru Vandana’ invocation, visually reconstructing 1900s Shirdi before the 2025 launch of the ‘Bhavshruti’ TV Series.

**Thane, Maharashtra Dec 17, 2025 ([IssueWire.com](https://www.issuewire.com))** - RajISG Gen-AI Studios today announced that its latest release, *“Mere Sai Guruvar – Sai Anubhuti,”* has been officially certified by **World Records India**. The project sets a new national and global benchmark, holding the official title of **“Longest Complete Solo-Creator Cinematic Restoration Spiritual AI Music Video.”**

The 4-minute-58-second production utilizes advanced Generative AI to visually reconstruct the 1900s era of Shirdi. The project was conceptualized and produced & performed by **Dhruv Upmanyu** and **Namrata Kr.**

**A Tradition of Invocation** This release establishes a spiritual foundation prior to the studio's major 2025 slate. Following the earlier release of *“Pratham Dev Shri Ganesh”* (Ganesh Vandana), *“Mere Sai Guruvar”* serves as the **Guru Vandana**—a cinematic salutation to the Master. These projects were created to invoke blessings before the upcoming global launch of the **“Bhavshruti” TV Series (2025)**.

**World Records India Certification** The record was verified on December 13, 2025, by **World Records India**. The certification acknowledges the unique technical achievement of a single creator

restoring a historical period using AI tools.

**Administrative Acknowledgments** The project was conceptualized following the creators' recent pilgrimage to the **Shri Saibaba Sansthan** in Shirdi. During the visit, Upmanyu was accorded a formal courtesy meeting with the Sansthan's leadership.

The filmmakers have formally expressed their deep gratitude to **Hon. CEO Shri Goraksha Gadilkar (I.A.S.)** and the **Public Relations team** at the Shirdi Sansthan. They credit the protocol courtesies and the darshan opportunity extended to them as pivotal to the creative process, noting that the experience provided the clarity needed to visualize the restoration. The World Records India title has been dedicated by the studio as a 'Guru Dakshina' to the legacy preserved by the administration.

**About the Project** *Mere Sai Guruvar* functions as a historical reconstruction, blending devotional composition with high-fidelity visuals of the 19th-century Shirdi environment. It utilizes next-generation technology to preserve "Civilizational Storytelling."
