

ExSynt Solutions Launches AiDiscover™ GrowthSpark

Fast, Automated Business Growth Analysis for Founders and Small Teams

Nashua, New Hampshire Dec 1, 2025 ([Issuewire.com](https://www.issuewire.com)) - ExSynt Solutions has announced the launch of **AiDiscover™ GrowthSpark**, an automated, AI-powered business growth system designed to give solo founders, small teams, and overwhelmed business owners rapid, consultant-level insights without the meetings, delays, or cost.

AiDiscover™ GrowthSpark enables users to speak naturally through a guided audio survey while the platform's intelligence engine transcribes responses, identifies growth opportunities, and produces a complete suite of five customized reports. Within minutes, users receive a full breakdown of their top growth levers, hidden bottlenecks, and actionable strategies for expansion.

"Most small business owners know they need strategic clarity, but they don't have the time or budget to hire a consultant," said Stephen Pappas, ExSynt Founder and CEO. "GrowthSpark bridges that gap. It's your own business strategy session in a box. Fast, affordable, and entirely **voice driven**."

How GrowthSpark Works

- Users complete a short, structured **audio survey** (4-5 minutes per question).
- AiDiscover™ GrowthSpark automatically:
 - Transcribes and analyzes responses
 - Extracts growth opportunities and risks
 - Generates tailored recommendations and 90-day action plans
- Users receive **five personalized reports**, including:
 - *The Growth GPS*
 - *The Truth Report*
 - *The Scale-Ready Scorecard*
 - *The Operations Optimizer*
 - *The Revenue Accelerator*

Two Versions for Different Needs

- **GrowthSpark™ Automated Edition** (\$149): For solopreneurs, coaches, and early-stage founders who need instant insights with zero scheduling friction.
- **GrowthSpark™ Expert Edition** (\$349): A hybrid experience combining a one-hour expert interview, AiDiscover's multi-layer analysis, and a live report-out session that delivers deeper, customized recommendations.

Built for Speed, Simplicity, and Scale

GrowthSpark was created for founders and small businesses that need clear direction before a new quarter, product launch, or funding round. By turning spoken reflections into data-driven strategy, AiDiscover™ helps users uncover growth levers, refine messaging, and identify operational weaknesses, all in a fraction of the time it would take through traditional consulting.

"We're democratizing access to business clarity," added Pappas, "every entrepreneur deserves

actionable insight, not just those who can afford a full-scale advisory team.”

Availability and Application at:
