

Indian Exporter Invites Global B2B Buyers to Source Handmade Handicrafts and Sustainable Textile Products

Indian export company opens direct sourcing and collaboration opportunities for international importers, wholesalers, distributors, and boutique retailers seeking handmade handicrafts and sustainable textile products.

Bengaluru, Karnataka Dec 27, 2025 ([Issuewire.com](https://www.issuewire.com)) - As global demand grows for ethically sourced and handcrafted products, Indian exporters are increasingly opening direct collaboration opportunities for international buyers. **Sanvi Exports**, an India-based export firm, is now inviting **importers**,

wholesalers, distributors, and boutique retailers to collaborate on sourcing handmade Indian handicrafts and sustainable textile products.

The company offers a curated range of **handcrafted wooden products, handmade cotton and canvas bags, hand block printed fabrics, epoxy resin wooden handicrafts, and traditional blue pottery**. By working directly with artisan clusters and small production units across India, Sanvi Exports enables buyers to access **factory-direct pricing, consistent quality control, and transparent sourcing**.

To support new international partners, the exporter provides **custom sampling, flexible MOQs, private labeling options, and export-compliant packaging**, along with assistance in documentation and logistics coordination. This approach allows buyers to test new product lines while minimising sourcing risks.

Sanvi Exports currently collaborates with buyers in the **United States, United Kingdom, Canada, Australia, and Europe**, supplying products suited for **home décor retailers, gifting brands, lifestyle stores, and interior design projects**. The company's focus remains on building **long-term sourcing partnerships** rather than one-time transactions.

International B2B buyers interested in reliable Indian sourcing partnerships are invited to request product catalogs and sample kits for evaluation.
