

Joan D. Goodman, MD, Recognized in America's Best in Medicine for Leadership in Radiology and Medical Education

Celebrating Decades of Expertise in Patient Care and Radiologic Advancement

New York City, New York Dec 3, 2025 ([Issuewire.com](https://www.Issuewire.com)) - Joan D. Goodman, MD, an Assistant Clinical Professor of Radiology at Harlem Hospital Center, is a distinguished radiologist who has dedicated her career to improving patient care and advancing medical education. With board

certification from the American Board of Radiology, Dr. Goodman specializes in diagnostic radiology, particularly in breast imaging and digital mammography. Her extensive experience and unwavering commitment to excellence have made her a respected figure in the field.

“What I enjoy most about practicing medicine at Harlem Hospital is the opportunity to make a meaningful difference in my patients’ lives while collaborating with a dedicated team of colleagues,” Dr. Goodman stated. “I find it incredibly rewarding to combine diagnostic expertise with compassionate care, to educate and mentor the next generation of physicians, and to contribute to advancing medical knowledge through both clinical practice and research.”

Dr. Goodman earned her Medical Degree from the Medical College of Pennsylvania in 1974 and completed her internship in internal medicine at Kings County Hospital-Downstate Medical Center in 1975. She went on to complete her residency in diagnostic radiology and a fellowship in diagnostic ultrasound at SUNY Downstate Medical Center, further honing her skills and expertise. Over the years, she has held various academic appointments and has been a leader in her own practice, Joan D. Goodman, MD, PC, for nearly three decades. In addition to her role at Harlem Hospital, she serves as an Assistant Professor at the Mount Sinai Health System, where she engages in clinical research and the teaching of innovative imaging technologies.

Dr. Goodman has authored numerous peer-reviewed publications on significant topics in radiology, including renal anomalies, transplant complications, and testicular lymphoma. Her notable works, such as “Crossed Fused Renal Ectopia: Sonographic Diagnosis” (Urologic Radiology, 1986), “Ultrasound Findings in Renal Transplant Rupture” (Journal of Clinical Ultrasound, 1985), and “Testicular Lymphoma: Sonographic Findings” (Urologic Radiology, 1985), showcase her commitment to advancing medical knowledge through research.

Dr. Goodman remains deeply engaged in the radiology community through her ongoing academic and clinical initiatives. Renowned for her commitment to lifelong learning and medical education, she cultivates a collaborative environment that supports the growth of medical students, residents, and fellow clinicians. Beyond her extensive professional accomplishments, Dr. Joan D. Goodman is widely respected as a mentor, educator, and steadfast advocate for excellence in radiologic practice.
