

Melonleaf Launches On-Demand Salesforce Developer Hiring Program for US Companies

Austin, Texas Jun 2, 2026 ([IssueWire.com](https://www.issuewire.com)) - Melonleaf, an international Salesforce consulting and digital transformation firm, has just introduced its On-Demand Salesforce Developer Hiring Program that is specifically designed to benefit fast-scaling companies in the United States.

With the growth of companies in their online ecosystems, the demand of Salesforce knowledge has risen enormously. The new program by Melonleaf provides an instant access to certified Salesforce developers to US businesses to be able to scale fast without delays and risks that used to be inherent with recruitment.

A Faster, Smarter Way to Hire Salesforce Talent

The On-Demand Hiring Program by Melonleaf provides startups, mid-market businesses, and enterprises with the opportunity to hire Salesforce talent within a period of 48 hours.

The program includes:

- [Certified Salesforce Developers](#) (Admin, Developer, LWC, Apex, Flow, Integration

Experts)

- **Flexible Engagement Models** – Hourly, Part-Time, Full-Time
- **Project-Based or Long-Term Hiring Options**
- **Cost-Effective Offshore & Hybrid Models**
- **100% Transparent Pricing with No Hidden Fees**

This initiative is designed to help US companies **accelerate CRM transformation**, improve customer experience, and meet evolving digital demands.

Melonleaf brings a strong track record with:

- **200+ global Salesforce implementations**
- **Expertise across Sales Cloud, Service Cloud, Pardot, Experience Cloud, CPQ, and custom solutions**
- **Dedicated teams for AI, Cloud, DevOps & Integrations**
- **Multi-time-zone availability for seamless US collaboration**

The new offering is expected to help organizations reduce time-to-market, streamline operations, and deliver better customer outcomes.

Part of Melonleaf's Larger Growth Strategy

The launch of this hiring program aligns with Melonleaf's 2025 vision — to become a **global technology partner for CRM, AI, and cloud-led digital transformation**.

By expanding into talent-as-a-service, Melonleaf aims to bridge the skills gap for US companies while supporting growth in key industries such as **healthcare, finance, e-commerce, tech, and real estate**.
