

Mindpower STEM Education and Spirit of Math Partner to Bring International Spirit of Math Contest to Lebanon

for 2025-26 School Year

North York, Ontario Dec 15, 2025 ([Issuewire.com](https://www.Issuewire.com)) - [Mindpower STEM Education](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Lebanon for the 2025-26 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration will give Lebanese students the opportunity to showcase their abilities on an international stage, while growing their confidence and skills which they will need for future success.

"At Spirit of Math, we are dedicated to revolutionizing education for students everywhere," said Kim Langen. "We are excited to support Mindpower STEM Education in their mission to cultivate young talent and help students realize their greatest potential."

Mindpower STEM Education, a Lebanon-based leader in STEM and robotics education, joins this initiative as a strategic partner dedicated to advancing hands-on learning and innovation in classrooms. With a robust portfolio of high-quality STEM kits, robotics tools, and AI education resources, Mindpower empowers schools and educators through comprehensive training and curriculum support.

This collaboration highlights a shared vision to cultivate creativity, critical thinking, and problem-solving skills among students. As the National Organizer of the World Robot Olympiad (WRO) Lebanon and Country Coordinator of the International Olympiad on Artificial Intelligence (IOAI), Mindpower brings global expertise and a commitment to nurturing the next generation of innovators through immersive learning experiences and international competitions.

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.

About Mindpower STEM Education

Mindpower STEM Education is a pioneering educational organization based in Lebanon, specializing in STEM and robotics learning solutions. We provide schools with cutting-edge educational products, including robotics kits, AI tools, and hands-on learning resources, all supported by expert-led teacher training and curriculum development.

As the official National Organizer of the World Robot Olympiad (WRO) Lebanon and the Country Coordinator for the International Olympiad on Artificial Intelligence (IOAI), Mindpower plays a vital role in connecting students to global STEM ecosystems. Our mission is to inspire young minds to explore science and technology through engaging programs, competitions, and classroom innovation—preparing them to thrive in a rapidly evolving world.
